Matt Cvetic, a Real Hero

Some men become heroes on the battlefields of war, others on the battlefields of peace. Matt Cvetic, who died in Los Angeles recently from a heart attack, was one of the latter.

At the request of the FBI, Cvetic became a Communist to spy on the Reds and learn their secrets. In that he did a tremendous job and the Communists never learned they had been tricked until Cvetic went on the witness stand and told his story before a congressional committee.

But in the meantime, what suffering he went through in life. He could not reveal to anyone

including his closest relative why he had become a Communist.

His Austrian immigrant mother died in sorrow in 1949 believing her son to be a traitor to the United States. His father only learned the truth three months before he died.

When Cvetic's wife learned he was a Communist she took their twin sons and left him, eventually divorcing him.

Matt Cvetic, in our opinion was a great hero. He made the supreme sacrifice in life. May kind memories of him and what he did for his country remain in our hearts forever.

CONGRESSIONAL CITATIONS

Mr. Cvetic: "In behalf of the Committee on Un-American Activities, I wish to thank you for your testimony during the past three days. In your own quiet and methodical way, you have given us a clear insight into the conspiratorial depths of the Communist Party. You have shown us how they operate by stealth and evasion through false-front organizations.

You have described from your own first-hand knowledge how the Communists operate in the trade-unions, masking their subversive aims behind a pretense of friendliness to labor.

You have revealed for the benefit of the people of Pittsburgh, those who actually pull the strings of the Communist conspiracy in that great city. For the people of the United States you have sketched a pattern of activities which holds true for other cities.

We cannot be oblivious to the remarkable courage you have displayed. You have given the American people an outstanding example of personal bravery which we cannot but appreciate. We congratulate you on your contribution to the work of the Committee on Un-American Activities, and assure you that the testimony you have given here, will serve as a significant chapter in the effort to enlighten the American people, as to the true nature of the Communist conspiracy."

Hon. Francis E. Walter, Representative
Commonwealth of Pennsylvania.

Mr. Cvetic: "I feel I express the feeling of all the members of this Committee, from what I have heard the other members say and from what I feel myself, that this Committee is deeply grateful to you for your testimony of the last few days or week. Your testimony is important in uncovering the subversive activities that are so extensive in our country. In view of the tendency of a great many of our loyal people, including prominent public officials and editorial writers, to minimize and depreciate the danger of subversive activities in this country, I wish that every American could have the benefit of your testimony."

Hon. Burr P. Harrison, Representative
State of Virginia.

STATEMENT OF PRINCIPLES
MATT CVETIC MEMORIAL FOUNDATION, INC.
(A California Non-Profit Corporation, Founded 1962)

"If we stay strong, if we have faith in God, faith in our nation and faith in ourselves, we may rest assured that the Red Flag of Soviet Slavery will NEVER replace our own Red, White and Blue of Freedom."

Matt Cvetic

The primary purpose of the Matt Cvetic Memorial Foundation, Inc., is to perpetuate the work and ideals of Matt Cvetic, whose name is enshrined in the roster of America's most heroic patriot fighters for freedom. This civilian soldier, at great personal sacrifice and risk far beyond the call of duty, secured information which alerted his nation, which played a decisive part in motivating Congress to determine that

"At present, the United States finds herself under attack by an enemy whose motive for hostility is to destroy the order of life in The United States to make room for Communist rule."

Matt Cvetic obtained irrefutable proof of the operations of The Communist Conspiracy within our nation. But more — he formulated and proclaimed two principles vital to the defeat of this enemy bent on destroying Free America. These principles, to be widely promulgated and activated by The Matt Cvetic Memorial Foundation, Inc., are:

1. To educate Americans, especially our youth, to the dangers, methods and techniques of The International Communist Conspiracy, and to all Socialistic and Totalitarian forms of government.
2. To promote an understanding and appreciation of the ideals of our Republic as established by the American Constitution.

It will be the duty of those who form and serve the Matt Cvetic Memorial Foundation, Inc., to carry on the work to which Matt Cvetic dedicated his life, and the principles for which he stood unequivocally.

MATT CVETIC MEMORIAL FOUNDATION, INC.
Box 2789, Hollywood 28, California

100% AMERICAN

On Matt Cvetic's last day on earth, he had run a race with the clock all morning, writing and editing an urgent patriotic document. Matt was no stranger to deadlines. But on this particular morning, he pursued his tasks almost as if he portentously knew that today he faced his final deadline.

Came noon. Hastily, Matt had a sandwich at a nearby coffee bar. Later, there would be lingering rumors that Matt had been fatally poisoned in that lunch room, killed by a Communist. In truth, an autopsy would not confirm this.

Matt Cvetic was not killed by a Communist; he died at the hands of all Communists, particularly those with the mendacious audacity to masquerade as loyal Americans. To the final beat of his heart, Matt Cvetic gave his full energy to fighting a Godless evil that he knew first-hand to be committed to the destruction of every human decency and every spiritual value.

Following the hurried lunch with his confidential co-worker, Patricia Hodgson, Matt told Patty he was going over to the Department of Motor Vehicles to obtain a California driver's license, to replace the Pennsylvania permit in his wallet.

"I'll see you back at the office," he smiled, then waved and drove off.

Matt Cvetic was never to return to his office. After taking his written driver's test, he waited in his car for an examiner to accompany him on the road test that must be taken by one whose previous license was issued by another state.

When the test supervisor arrived, he found Matt slumped over the wheel, dead. On the seat beside him was his written test. In the upper right-hand corner of the long sheet was his grade: 100%.

Thus, Matt Cvetic's last official act on this earth reflected accurately and memorably his admirable record as a selfless, dedicated American.

In this too, Matt Cvetic had been 100%.

Most Counterspies within the Communist Criminal Conspiracy are former authentic Communists, men and women who secretly defected from the party to offer their services to our law enforcement agencies. Matt appreciated this. He believed that there is no finer human trait than one's willingness to recognize a mistake, admit it, then make amends through exemplary action.

Matt Cvetic was the close associate and friend of many such intelligence agents. He held — and still holds, in memory — their maximum respect, because all of them knew that Matt, rather than being caught in the web, had walked into it deliberately at the behest of his government. Matt Cvetic consciously and willfully turned his back on all the freedoms of normal and relatively uncomplicated life to infiltrate the Communist Party, as requested by the F.B.I.

Through leadership abilities that would have made him a man of towering strength and influence in any career he might have chosen, Matt rose to a position of power and importance within the Communist hierarchy in America. Thus, when Matt "surfaced" and carried into the House Committee on Un-American Activities hearing room 93 pounds of documents to corroborate his testimony, he handed to those who are fighting to save our Constitutional Republic sufficient authenticated information to destroy the Communist plot to encircle, demoralize and subvert our beloved nation.

Unfortunately — our government has done very little to put to effective use the great and powerful ammunition provided by Matt Cvetic in his 1000-plus pages of sworn testimony.

Matt Cvetic died knowing the job had been only half-finished.

The patient had been diagnosed but the operation was never performed.

It now becomes our obligation — yours and mine — to finish Matt's magnificent mission. We owe it to the memory of the man, to the ideals he cherished, to the God Matt Cvetic served in his lonely vigil and courageous conduct.

Particularly among the youth of America, with whom Matt worked so successfully, we must spread the truth and nurture the concepts so vital to saving American sovereignty.

And that is why we earnestly invite you to become a supporter and active advocate of The Matt Cvetic Memorial Foundation, Inc., a non-profit corporation dedicated to carrying Matt's work to a conclusion that can be realized only by smashing out of existence forever the God-defying disease of Red Fascism and its butchers.

WITNESS ON THE STAND

By TONY SMITH
Press-Washington Correspondent

WASHINGTON—Matt Cvetic was a good witness. He did a devastating job on the Pittsburgh Commies. And, he did it according to the rule book.

His formal conduct during the three-day hearings was impressive. Seldom has any witness before the House Un-American Activities Committee acquitted himself as well.

Mr. Cvetic did his work intelligently and thoroughly. He began by gaining the respect of the committee members for his nine-year sacrifice as an undercover agent for the FBI in the Communist Party.

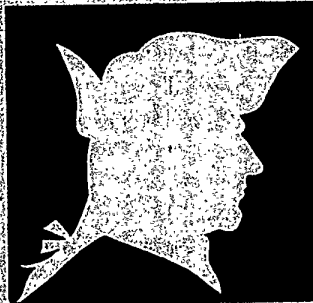

Then, he cemented relations by rigidly confining himself to information he knew positively—either from personal experience or from documentary evidence at his disposal. This appealed to the heavy representation of attorneys on the committee.

No Loose Charges

There were no loose charges or smears. Mr. Cvetic did not name or identify as Communists any persons whom he merely suspected or had circumstantial evidence against. The persons he identified were persons from whom he collected Communist dues and attended meetings with. The meetings were limited to active Communist Party members.

MATT CVETIC

And there is no mystery about the witness' astounding memory for names, dates and places. That was his job. He was paid by the FBI for keeping track of such details. His testimony proves he did his risky undercover work well.

At many of the meetings called by Western Pennsylvania Communist leaders like Steve Nelson and William Albertson, Mr. Cvetic arranged to be the doorkeeper. In some cases, the CP members had to prove it to their accuser before they could gain entrance to party meetings.

During the three-day hearings, the witness was given many opportunities to enlarge, exaggerate or embroider his testimony. He declined them all.

Time and again, Mr. Cvetic would tell his questioners, "On that, I have no knowledge. If it happened it did not happen in my presence nor was it ever officially reported to me."

He Had the Minutes

Several times, when his identification of some Communist was questioned, Mr. Cvetic stopped the doubters cold with the comment "I collected his dues and I can tell you how much he paid."

Other times, he would say, "I have the minutes of the meeting he attended which I turned over to the FBI." Or "I was on the door at some meetings he attended."

When Mr. Cvetic completed his testimony, Congressman Francis E. Walter, Easton Democrat who was acting chairman of the committee, read a long statement thanking the Pittsburgher for his patriotism and courage. Then, the Congressman offered the witness his congratulations. Several committee members came down off the dais to shake hands with the witness.

It was a rare scene.

THE BIG DECISION

Long on the best-seller lists, "The Big Decision," Matt Cvetic's dynamic story of his experiences as a counterspy within the Communist Conspiracy, is available in most book stores, all patriotic book and record shops, or may be ordered directly from the Matt Cvetic Memorial Foundation, Inc., Box 2789, Hollywood 28, California. Price \$1, postpaid.

This book is particularly appropriate as a gift to be given to high school and college students. In completely understandable terms, it explains the Marxist-Leninist methods of operation, not through mere description, but actual case histories of Communist techniques as employed in true and documented incidents within Matt Cvetic's experiences.

CONTRIBUTIONS

To carry on Matt Cvetic's work among the youth and other segments of American life, money is urgently required. With this folder is a special contributor's blank. Should you lose it, or pass it along to another friend of freedom, your check or money order may be sent directly to the Foundation at the address below. Contributions are fully tax deductible. Dear [redacted]

I thank you for writing me regarding the reprints. Although this task has been difficult, in the light of developments, your letter was most helpful in the reprints.

A couple of days ago, a man phoned here who claimed he was trying to get [redacted] who was coming on a plane with his wife, children and grand-children. He said he had made a mistake in dialing as he had been here only a week and not familiar with our dial system. He said he was a rabbi from Israel who had been forced to come to America, and that the quota called for 123,000 to be sent here, and 2,500 to Cleveland.

b6

This man told me that they were promised a check every Monday morning from [redacted] widow of [redacted] who was killed not long ago in an auto accident in Spain. Mrs. B-- the man told me was given the money by Kuhn Loeb & Co.

b6

[redacted]
He further gave the information that a number of them are taken in station wagons every morning for instructions in shooting to Gates Mills, a suburb of C., that they are preparing for a revolution in many cities on Sept. 16 at three o'clock A.M. The cities he named are Cleveland, Chicago, Indianapolis, Denver, Dubuque, San Francisco, Los Angeles, New York and Newport R.I.

b6

I gave the information to the FBI, and also to a prominent Republican here who will tell the Mayor.

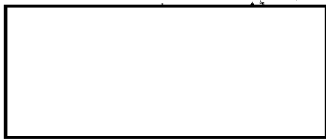

I talked with the FBI this morning to learn if they knew anything more about this and they do not, but promised me they would not regard the information lightly. The plan has been carried out in other countries and although the date may be offloading this I feel sure is what they intend to do.

I have written to show you how necessary it is to get their activities before as many people as possible who are inclined to regard communism as a political movement that can never touch them.

Sincerely yours,

Russia Held Actually at War Against U.S.

The inability of many Americans to see the Communist program for what it is — an international conspiracy — has reached the stage of chronic illness.

There are a large number who contend the vicious attacks on Vice-President Nixon were due to our inept handling of South American relations for many years past.

Some truth can be found in such a view, and even the Vice-President himself says we must change our way of dealing with our Latin-American neighbors.

Yet the most important lesson to be learned from the hatred turned upon us in many corners of the world seems to escape too many people in this country.

That is, that a very few Communists can create a very, very large amount of trouble — enough to upset "mental health" — not only in one country but throughout the world. And they're busy doing just that.

The truth is, as Editor David Lawrence recently pointed out in U.S. News & World Report, we Americans "have not yet learned how to fight this modern type of invasion."

Lawrence is absolutely right, and his use of the word invasion is well chosen. America has been invaded by Communist agents who are gaining ground steadily because there are some among us who believe we can compromise morality.

The compromisers include the do-gooders, the one-worlders, the fuzzy thinkers and the intellectuals and liberals who devote so much of their time to defending Communists' "rights" in this country.

Indeed, the whole collection of bleeding hearts is so busy using our Constitution and Supreme Court for the protection of Communists that the rights of loyal Americans are rapidly being curtailed.

"We must make agreements with Russia, we

and biggest mistake. Communism is not politics, nor is the Communist Party a political party.

Communism is an international conspiracy designed to take over the world and, in the Communist view, mass murder is a legitimate means to that end.

The Communists' writings and rantings have told us over and over again what they consider to be the "necessary" steps to world domination. Yet the dupes in America persist, in ignoring the facts.

As for all of the Russian artists being spies — no, of course all of them aren't, but they bring along enough "interpreters" and Soviet agents to do the job for them.

That is the Kremlin's chief interest in "exchanging" the culture of the old Russia (Communism has no culture of its own) for ours. Actually, of course, the Kremlin bosses have nothing but contempt for our culture.

But they're saving a last dance for all of us if they have their way. It will be a dance of death at the end of a Red rope which we are helping to weave by our apathy.

The gullible, the thoughtless and the other dupes, however, are not principally to blame for the tragic state in which America now finds itself.

The principal blame rests squarely on the shoulders of our so-called leaders who go along year after year on the premise that honest business can be done legally with brigands.

For years our national administrations have been so saturated with softies and incompetents that Communists and their allies have little trouble being placed in key spots.

As for our intelligence work abroad, it is chiefly characterized, time after time, by its lack of intelligence.

News accounts indicate that our so-called Central Intelligence Agency wasn't even aware of the

SOVIET ENVOY'S PROPAGANDA MOVE ON CONGRESS BARED

Rep. Michael A. Feighan of Ohio has demanded that "Smiley" Menshikov, the Soviet Ambassador, be kicked out of the United States. It seems "Smiley" may have gone a little too far this time.

What occasioned this demand was Rep. Feighan's discovery that all members of Congress received a propaganda handout on the letterhead of the Soviet

Latin-American Stand Against U.S. Explained

The visit of Vice-President Nixon to South America brought on an explosion which was the result of 10 years of seething discontent among our neighbors who believe that the United States has treated them unjustly following their aid to us during World War II.

This feeling began at the Ninth Inter-American Conference at Bogota in 1948 when they were frankly told by the United States delegation that its responsibilities to Europe and Asia were too great for this country to aid our neighbors.

From Bogota on we largely forgot Latin America in our efforts to save the world. Secretary Dulles has never visited Mexico or Brazil, the two largest countries in Latin America, but has managed to see a good deal of Spain's Francisco Franco and of the dictators of Arab countries. From 1946 to 1954 the United States gave to Europe \$34,100,000,000 in aid, to Asia \$9,700,000,000 and to Latin America \$1,100,000,000.

Vice-President Nixon unfortunately picked the wrong time to visit South America. Most of the dictators, our friends, were gone. His visit four years ago, to Central America was a great success. Pictures of great crowds greeting him at airports with his arms around the local dictator appeared widely in the press.

He returned home a conquering hero. Before that President Eisenhower sent his brother, Dr. Milton Eisenhower, as his personal representative to visit the chiefs of state. Special attention was given to the two outstanding dictators, President Odría of Peru and President Perez Jimenez of Venezuela, who were chosen to receive from Dr. Eisenhower Washington's highest decorations.

The compliment was re-

tor allowed no difficulty to come in the way of a hearty reception.

In Bolivia, where a social revolution has recently occurred, the United States has a high record for aid to a needy people.

In Peru the real opposition began. Since the organization by the university students of the Socialist Apra Party the struggle against the reactionaries has brought on many riots. I have witnessed more than one in the University of San Marcos.

They have recently occurred, along with a violent strike in the copper mines, because Mr. Nixon's country has started a depression by raising the tariff on copper. Ecuador suppressed attempted riots but the Foreign Minister gave the Nixon party a private analysis of the well-founded program and economic inducements offered to Latin America by Russia.

In Colombia, after 10 years of cruel dictatorship, Dr. Alberto Lleras has just been elected President. There were plenty of elements similar to those that broke up the Bogota Conference 10 years ago. But wherever Alberto Lleras is there will be no demonstrations against the United States, if that good friend of ours can help it.

In Venezuela the wounds were fresh. In the mobs that insulted and sought the lives of the Nixon party, no doubt there were Communists — some made by our friend, Dictator Perez, and some by the intrigue of the U.S.S.R.

But there were others crying for revenge for raping of sisters by the dictator's soldiers, for fathers and brothers rotting in prison, ruined in business, shot for writing a critical article, and many wounded in the recent uprising that drove out

County Museum Given 500-Pound Jade Piece

Skin Diver Presents \$10,000 Green Chunk Provided It Remains on Public Display

An El Monte skin diver, who has never sold any of the treasures he has taken from the sea has given the Los Angeles County Museum a \$10,000 chunk of jade he found in the ocean 35 miles south of Monterey.

Albert Tillman, 30, a Los Angeles State College recreation teacher, gave the museum possession of the sleek, green slab as long as it remains on public display.

Contract Signed

Under terms of a contract, Tillman, who also heads the County Recreation and Parks Department skin-diving program, gets the 500-pound specimen back if it is ever taken off display.

Tillman, a young man with ideals, believes the jade

the rock up in a heavy net. After reaching the water surface, it was necessary to move the jade 300 feet to shore.

Then there was the job of hoisting it to the top of the 350-foot cliff. Eight persons accomplished this in a day with the aid of ropes and a cargo net. That was last December.

Plans More Diving

Tillman plans to return to the area for more diving. There are several shipwrecks in the bay, he said, and there are reports that the remains of an old paddle-wheeler is lying on the bottom.

Helping Tillman bring out the jade were his brothers Don of Sherman Oaks, Ken of Arcadia, and Dick Bartlett Jr., La Canada; Mike and Bruce of the same area; and Earl

Europe to Study Fossils of San Luis Rey Man

Dr. J. J. Markey of Oceanside will enplane at International Airport here tomorrow, taking a fossilized skull and other skeletal fragments of the so-called San Luis Rey Man to Europe and the British Isles for anthropological experts.

The San Luis Rey Man, believed to be the first inhabitant of North America some 50,000 years ago, was discovered in San Luis Rey Valley near Oceanside.

Dr. Markey is president of San Luis Rey Historical Society. He also will take with him enlarged photographs of 400 coins, part of a treasure trove of 2000 coins excavated in San Luis Rey Valley and believed buried there in 1540 by a Spanish expedition seeking the Seven Cities of Cibola.

The fossils and artifacts will be examined by experts in the British Museum in London, the Museum of Man in Paris and other institutions in Holland, Italy and Spain.

City Schools to Graduate Record Group

A record number of students will be graduated from 127 schools in the Los Angeles city school system in commencement exercises from June 11 through 20, according to Superintendent Ellis A. Jarvis.

The 1958 summer graduating class includes 40,098 pupils, 1492 over the previous high of 38,606 graduates turned out last summer.

The girls in the current graduating classes are outnumbered by the boys by approximately 1400 pupils.

The largest graduating class in the system will be that of the Los Angeles City College, 1146 pupils, who will receive Associate in Arts degrees at 5 p.m. June 19 in the college auditorium.

the "everlasting theme of the "profound thinkers" who practice of peaceful co-operation.

No matter that Communists never keep agreements; no matter that they invariably stab their "friends" in the back—we must sign on the line, the special pleaders for Russia insist.

On TV we're subjected to such nauseating spectacles as a multimillionaire "liberal" assailing the FBI as a "Gestapo." The FBI, of course, only works 24 hours daily, 365 days a year trying to guard all of us, including those who attack it, from Kremlin plotters.

The "intellectuals" and the liberals look down their noses at those of us who fight any compromise with Communism, even when it is labeled "cultural exchange."

"Do you mean to say these artists are plotters?" sneer the dupes. "How can they do any harm? They're concerned with music and dancing, not politics."

Right there is where the dupes make their first

our Vice-President.

How can we save ourselves even at this late hour?

Make certain we elect only real Americans to Congress and to every State and local office, shake the very devil out of the Supreme Court, and kick every single Soviet agent out of this country.

Does that mean severing diplomatic relations with Russia?

★

It does, indeed. And why not? Our troubles date from that day in 1933, when we recognized Communist Russia. Isn't it significant that our troubles are growing progressively worse?

The Soviet Union is making war on us — with the aid of the dupes within this country — just as surely as if it were bombing us daily.

What kind of an America is it that exchanges "culture" with an avowed enemy, and wines and dines its "charming" Ambassador while a state of war exists?

to clear traffic, but I live in a neighborhood where there is no traffic at that hour. In fact, you very seldom meet a car if you happen to be out at that time.

It seems to me that sirens could be used at, let us say, 7 a.m. to 10 p.m., and at other times only when necessary. This would eliminate the necessity of waking everyone while sirens scream at an empty street. A flashing red light could warn anyone who happened to be out at that hour. New York City has had a law eliminating all sirens in effect for some time. This has met with great success and has actually cut down on accidents.

SHIRLEY BERMAN, Santa Monica.

Unappreciated

It seems incredible to me that some of our citizens must go from door to door, soliciting funds for various needy and worthy causes to aid some of our own citizens, while the United States continues to pour money and commodities into countries that apparently do not appreciate it or us. In fact, some of the recipients are now our sworn enemies.

Friendship is never bought or sold. Pseudo-friendship is only the "white card" to get in on the "grave train."

WILLIAM D. BUNCH, North Hollywood.

Finicky Hogs

The hog farm outside of Whittier notified the city that it would no longer take garbage containing paper, and the city so notified householders.

Now if those hogs object to eating their lunch out of paper soon they'll be wanting mayonnaise on salad just like the rest of us. Where will this thing end?

Stand up for your rights, you garbage bucket householders, and don't allow yourself to be pushed around by a hog. IRATE CITIZEN, Whittier.

Embassy demanding that there should be no rearming of West Germany. (Let an irate taxpayer write a demand and see how far he gets.)

If we sit back and allow the Soviet Ambassador to go over the head of our President and lobby for causes detrimental to our country, God help the United States of America!

Incidentally, this Menshikov is the same delightful fellow who let thousands of Polish patriots starve to death while he was head of the United Nations Relief and Rehabilitation Administration after World War II. Testimony before the House Committee on Foreign Affairs in 1946 revealed that unless a person was an active supporter of the Soviet puppet government of Poland he didn't get anything to eat for himself or family.

It's about time we wake up to the fact that "Smiley" isn't smiling—he's laughing at us.

Coexistence—it's wonderful!

M. H. S., San Fernando.

Psychiatry Plan Upheld

The opponents of the establishment of psychiatric clinics in our country or city are claiming such institutions are Socialist or would lead to Communism by denying personal freedom. In the extreme, by giving the power of incarceration to the psychiatrist, such persons would be in jeopardy when their political views were contrary to the majority views of our society.

This is simply untrue, unfounded and a gross misrepresentation of obvious fact. Here are the safeguards:

3—In the event of a disgraceful "national stink" over Communism in such clinics, the Un-American Activities Committee of Congress can and would investigate and correct the situation.

These safeguards are elementary and positive. There can be no brainwashing. Also there seems to be a widespread misconception of the purpose of psychiatry. There never was and never will be—as long as our safeguarded constitutional system of government exists — any purpose of sinister political indoctrination. This existed under Hitler and Stalin but not in our good old United States of America.

1—The Board of Supervisors holds the purse strings and at any time could end abuse by the simple act of reducing the salary of a psychiatrist who is "out of line" to \$1 per month or fire him summarily.

2—Any psychiatrist who would harm or hurt an individual by indoctrinating him with Communism.

It is a tragic thing for the cause of justice that names and records of judges are not given wider publicity so that the public may do some weeding out at election time.

Music Man

Oh, no! Not again! I speak of the forthcoming Gershwin Night at the Hollywood Bowl. If I never hear the "Rhapsody in Blue" again it will be too soon, and that goes for "Porgy and Bess."

What's wrong with a Victor Herbert Night — just once? In my not so humble judgment he is one of the greatest composers living or dead. His operettas will live forever.

Some of his works are: "The Only Girl," "Babette," "Sweethearts," "The Red Mill," "The Idol's Eye," "The Enchantress," "Naughty Marietta," "It Happened in Nordland," "Indian Summer," "Princess Pat," "Babes in Toyland," and "Mlle. Modiste."

Well, I don't have to go to the Bowl.

G. L. E., Los Angeles.

Call to Action

It was with great satisfaction that I read the May 26 letter, "Mental Questionnaire Purpose Under Fire," by H. P. Stevens.

I congratulate you on your courage in printing such facts. If more newspapers had a bit of your regard for liberty of expression we could arouse more of our patriots to action.

Keep up the good work. ADA L. LYON, Long Beach.

rees on educator Eisenhower by the Universities of San Marcos and Caracas. In Argentina the Washington mission, after intimate fellowship with Dictator Peron, publicly acclaimed him to be "a great Argentine and a great American."

★

A plague of dictatorships followed the Bogota conference. They began to fall when democratic forces of Argentina tumbled Peron from his seemingly secure throne. Today the only one left in South America is Alfredo Stroessner of Paraguay.

It is significant that the most violent attacks made on Mr. Nixon occurred in the two countries, Peru and Venezuela, whose dictators Presidents had before received special honors from the President of the United States. Other special attentions did not cease until the wave of antidictatorship started by the expulsion of Peron by Argentina in 1954. Then dictators toppled like a stack of cards in Peru, Colombia, Venezuela and Nicaragua.

★

A hurried tracing of Mr. Nixon's trip will be enlightening. For some reason Brazil, half of South America, and Chile, were omitted. The first stop was Uruguay, the smallest and most democratic republic on the continent and historically our most cordial supporter.

During the 10th Pan-American Conference in Caracas, however, Uruguay was deeply affected by Secretary Dulles' coolness toward human rights and an insistence on an international agreement to oust Communism. A fatal blow to our friendship came with the raising of our tariff on wool, which has thrown Uruguay into her worst depression.

Argentina, historically the rival of the United States, is still smarting under our praise of Dictator Peron, who has left the country in bankruptcy. In Paraguay, which is conscious of considerable Point Four help from the United States, the dicta-

living in luxury here, protected by Mr. Nixon's government.

Fortunately Mr. Nixon, President Eisenhower himself, and members of Congress are calling for a new inter-American program. Now that the country has been shown how near we can come to losing a continent, let us unite in showing how we can rewin it. I suggest the following:

1—Base our inter-American policy on intimate relations with neighbors, not on rivalries between Russia and the United States.

2—Renew and enlarge the Trade Agreement Act so as to stop unjust tariffs.

3—Stop petting the dictators — strict protocol — no favors.

4—Restore former practice of consultation with fellow Ministers of Organization of American States.

5—Enlarge the mutual aid and exchange of persons programs. SAMUEL GUY INMAN, Bronxville, N.Y.

Dr. Thomas Clements, the museum's mineralogy curator, said yesterday the specimen may be the largest one of gem quality ever found on the West Coast. The piece is three feet long, two feet wide and 13 inches thick. It is perhaps 100,000,000 years old.

Found in Bay

"This specimen was found in a bay about halfway between Monterey and San Simeon," Tillman said. "There are many small pieces of jade in the bay at various depths. Apparently a vein of it extends under a 350-foot cliff that rises from the sea there and storms and water action have broken off pieces over the centuries."

Tillman said he swam over the big jade boulder several times before spotting it in a recess under rocks in 45 to 50 feet of water.

After discovering it several months ago, he and a team of helpers tried several times to bring it up. There were no sharks in the area, but there were a few killer whales.

The divers attempted to raise the boulder by loading it into a life raft and then by hoisting it up by ropes to a float, using the tides to help elevate it. But the huge rock slipped away each time.

Finally five divers put three large desert water bags under it, inflated them, and with their buoyancy, brought

The files of the Salt Lake City Office contain information to the effect that GUY DARLINGTON LOUCKS, JR., who is probably identical with the above captioned individual, was investigated as an applicant in the Atomic Energy program, the results of which are set forth in the report of SA LEVERETTE A. BAKER dated 7/3/52, at Salt Lake City in the case entitled, "GUY DARLINGTON LOUCKS, JR. - NT - 302, Alta, Darlington G. Loucks". It is noted that the investigation in the Salt Lake City area disclosed nothing derogatory. The files further reflect a communication dated 7/3/52, from Los Angeles, Los Angeles file 11C-50518, indicating that GUY DARLINGTON LOUCKS, JR., was the subject of another investigation being conducted by the Los Angeles Office, which investigation was based upon an inventory audit conducted by a representative of the San Francisco Regional Office, Army and Air Force Exchange Service. The inventory audit disclosed a shortage of \$9,291.04. The investigation revealed LOUCKS had been arrested at Salinas, California, on 4/6/51, on a bogus check charge and was placed on probation for three weeks by the Superior Court at Salinas, California. The investigation disclosed nothing specific involving LOUCKS in this matter other than the fact that he had access to the missing merchandise and had a previous criminal record. The Assistant United States Attorney at Los Angeles declined prosecution of LOUCKS.

Los Angeles is requested to report any additional pertinent information contained in their files regarding LOUCKS.

Albuquerque is requested to review the personnel files of the United States Atomic Energy Commission for Camp Nereury, Nevada, to obtain background information regarding GUY D. LOUCKS.

The only additional information available to Los Angeles regarding LOUCKS is the following: On 12/26/42 GUY D. LOUCKS, 2723 Sunset Blvd., Los Angeles, California, telephoned the Los Angeles Office to state that he had been employed since 6/6/42 at the California Shipbuilding Corporation, Terminal Island, San Pedro, California, as a painter. He furnished considerable detailed information regarding a deliberate slowdown in the painting aspect of ship manufacturing at this company. As a result of the slowdown and the inability of his fellow employees and himself to work because of actions of supervisors, LOUCKS went home against the orders of his supervisor rather than remaining at work doing nothing. He was terminated for this reason.

The information was furnished to the U. S. Department of Justice, 1602 U. S. Post Office and Courthouse, Los Angeles, California. JAMES E. HARRINGTON, Chief of Los Angeles Office of the Department of Justice, advised the actions at the California Shipbuilding Corporation seemed to be the usual type of slowdown, but under existing laws there was nothing that could be done. No further action was taken by the Los Angeles Office.

Presented by Republican Women

Former FBI Agent Is Speaker Here

"If we lose, we lose forever," was the opening remark of Matt Cvetic, former FBI agent, who addressed a jam-packed audience at Merced Women's Clubhouse Monday evening. Cvetic was referring to any negotiations the USA may have with Russia. He warned that any co-operation even in the exchange of students and scientific ideas would be all to the good for Russia and a losing cause for the USA.

For nine years Cvetic worked as a Communist as an undercover man for the FBI. In all that time he was never suspect—playing his role up until he was called to Washington for a Senate investigation.

Cvetic was employed by the United States Bureau of Employment at Pittsburgh, Pa., at the time he was approached by the FBI to work with the Communists. This was in 1941. At that time he said in his office of 18 employees, four were Communists. It took him 22 months to be asked to join the party in Pittsburgh. He brought this about by agreeing with the four regarding the policies of their party. He was assigned to the professional branch, which included the scholarly members of the party including doctors, dentists, engineers, professors and the like. He became one of the 18 ranking Soviet agents in the USA.

His mother died thinking he was a traitor to his country. The only person who knew he was an FBI agent

(besides those in Washington) was a priest.

He spoke of some of the societies in America masquerading under the heading of "patriotic" which are Communist inspired. He cited the American Commission for Protection of Foreign Born as one of these.

Cvetic declared the belief by some that the Communist party in the USA is different from that in Russia was a huge fallacy. All orders he said stem from the leaders in Russia and the Communists here do not deviate one iota from these orders.

He said their motto is "overthrow of government in the USA and elsewhere, forced labor and massed murder." He said the party bosses have nothing but contempt for the so-called intellectuals who donate large sums to the party. They call them suckers, he said.

During his service for the FBI he had one close call in 1947 when he became suspect and attended a meeting of the high party members in which he succeeded in clearing himself of any doubt as to his loyalty.

In closing he declared "if the Russians honestly felt they were superior in armed forces and modern warfare supplies, they would be here right now." However, he said, he himself is convinced that the USA is superior in every way regardless of the present public feeling to the contrary.

The only way to win this fight is "do not compromise" he declared. To recognize Red China would be a fatal mistake, and to trade with the Communist country is a double fatal mistake, he declared.

Our fight, he said, is a "spiritual and moral fight" and it is the job of every American to keep it so.

Cvetic was presented here by the Eastside Republican Women's Club. Mrs. E. D. Benson presided and introduced the speaker. Edward Leap led the pledge to the flag and Mrs. Carl Swanson, a past president, gave the invocation.

Dessert was served before the address at long tables in the auditorium.

MATT CVETIC, the former FBI agent who was in Merced Monday to talk about his task of infiltrating the Communist Party during the 1940's, is a short, round man who looks not at all like the movie version of a G-Man.

He is only five-foot four-inches tall. Yet, it was this absence of height that was largely responsible for Cvetic's getting into his line of work.

This is how Cvetic explained it:

"At the start of the second World War I tried to get into Army Intelligence. Although I was in personnel work, I had always been interested in criminology.

"The Army turned me down, however, because of my height. Then, a few days later, an unidentified man phoned me and asked if I would be willing to take on a dangerous job for the good of my country.

"It happened that he was an FBI agent who had learned of me through my Army application."

Unobtrusive-looking Cvetic turned out to be just the man they needed.

Ex-Undercover Agent Warns of Red Smears

The article, "A Dangerous Tactic," by Holmes Alexander, was quite interesting. It reminded me of my first statement to the press in Washington after I came out of the Communist Party.

I told the press, "I guess now I'll become the victim of one of the Communists' most vicious smear campaigns."

Now, eight years later, I know how I underestimated the slanderous attacks of the Communists. Not for nothing did the good Lord warn that slander is the most heinous of sins.

★

As for destroying the reputations of those who fight the Red conspiracy, the Communist Party and their allies are experts in this field. Well do I recall how devastating is the Red smear, for one of my major assignments when I was posing as a Communist for the FBI was to destroy the reputation of the late Congressman John McDowell of Pennsylvania. McDowell, you will recall, helped Vice-President Nixon expose the chicanery of Alger Hiss.

At the behest of the Kremlin, the Communist Party in Pennsylvania waged an all-out attack on McDowell's reputation. It was one of the most vituperative and slanderous attacks that I have ever

seen. Yes, the Communist Red smear succeeded in defeating John McDowell and retiring him from public life.

He never recovered from that blow. Shortly before Christmas of 1957, broken in health, he died by his own hand.

★

And so went to his grave another patriotic American—a victim of the Red smear.

We ought to stop playing the Communist game by name calling and branding those who fight the Communist conspiracy.

In the fight against Communism, we Americans, irrespective of race, creed, color or political bent, have a common cause—the preservation of our freedom and our republic.

MATT CVETIC,
Los Angeles.

Matt Cvetic will be remembered as the FBI undercover agent who worked nine years to expose Communist Party activities. Believing him to be a Communist, his mother died several months before his heroic role was revealed before a Congressional committee in 1950. His experiences were told in the Saturday Evening Post serial, "I Was a Communist for the FBI," in a motion picture and a radio series.—Ed.

I asked him to secure for me a copy of Nelson's book and a copy of the Communist manifesto which I told him I would like to have. Without me posing any question to him, he mumbled something about not giving Hoover any information on what he knows. He also stated that he attended the Communist Trials here - and quoted the Communists as stating in the Trial that they are not for violence. Scanning through Nelson's book, it seems Nelson doesn't like me. Personally I don't think there is any danger of the tripe he writes becoming a bestseller. Which reminds me that while I worked with him, he was writing a tome in which he called the hero "Little Matt". However before he had a chance to get it on the press, Little Matt turned out to be working for the FBI, so Nelson re-wrote the manuscript, and made me the bum. I'd like to have been sitting around listening to him

Dear Doc:

Attn: Doc Parker.

When some people in this area talk about those with millions, who help the Communist cause, at least one family they have reference to is [redacted]

From what I understand, [redacted] the Los Angeles Times, which follows one editorial policy; and [redacted] the Mirror News, housed in the same building, which follows another. The contradictory role of this wealthy family, puzzles many people around here, and has them in a "tizzy".

b6
b7C

A case in point is the enclosed, slyly malicious cartoon, which appeared as a reprint from the Washington Post, in the Saturday May 24th. 1958 issue of the Mirror News. You don't have to be a third-grade moron, to know how much harm this type of cleverly vicious cartoon, does to the nation.

It is difficult for many people to understand the type of duality practiced by people of [redacted] calibre.

b6
b7C

Several years ago these dual-tactics, of a section of American Society, were described by a historian, with a sense of humor, in these words. He was writing about the American Revolution. "High Society, God love them, they sure like a winner. When the Americans moved into Philadelphia, they hung out the American Flag; when the British moved in, they hung out the British Flag; and vise-versa."

The fence-sitting tactics of the selfish and the greedy; the moneyed class and the intellectuals, in time of strife, is as old

MC

as history itself. Mr. Hoover covered this aptly in his book, when he stated in essence, that the Communists have a program for the greedy, as well as the needy; and that the sympathizers and the dupes, at times, do more harm than the Party members.

So it is with the [redacted] and other people of their stripe. They may be wealthy or intellectual but are, in many cases, selfish, greedy, morally dishonest, or just plain stupid.

If they but knew how the Komrats despised them, and what lay in store for them, if by some mischance the Komrats took over, they would stop playing "DUMMY".

Sincerely,

Matt Cvetic

LOVE CAME BY ACCIDENT

Wheel-Chair Couple Schedule Wedding

If Thomas Snorgrass, 31, hadn't plunged his car over an Angeles Crest Highway embankment in 1948, he might never have met, wooed and won his pretty bride-to-be.

And if Mary Ramos, 26, hadn't gone square-dancing in her wheel chair, love might never have come to the happy couple.

Ceremony June 1

As it turned out, fate played Cupid and today Tom and Mary wheeled themselves happily to the Hall of Records and got their license to wed.

The ceremony will take place at Gretna Green Wedding Chapel in Downey June 1.

Then they'll set up house-keeping at 1208 W. Adams

Blvd., close to Los Angeles Orthopaedic Hospital, where Mary works as a medical secretary.

Snorgrass, a former U.S. forester, who turned an accident into an asset, recalls with a wry grin how it happened.

"I was rounding a curve when I lost control. The car plunged 300 feet down an embankment. I was pinned beneath the overturned car for hours."

"It wasn't just a case of two people in wheel chairs finding each other," Mary insists. "We found real love and a wonderful mutual understanding and sharing of interests."

Miss Ramos, 2440½ 112th Place, lost the use of her legs from a spinal ailment.

Wallace TV Program Is Expendable

By JACK LAIT JR.
Radio-Television Editor

MY NOMINATION for the most expendable program on TV is the Mike Wallace interview series on ABC, financed by a \$50,000 grant from that strange outfit known as the Fund for the Republic—which is favored by our Government with a tax-exempt status as an "educational" foundation.

(Part of the costs of the Wallace program are also borne by the ABC Network as a so-called "public service.")

Wallace's recent on-the-air interview with millionaire Cleveland industrialist Cyrus Eaton, in which Eaton hurled hysterical accusations against J. Edgar Hoover and the FBI, was nothing less than a public disgrace.

Eaton, long known for his friendly feelings toward Soviet Russia, charged Hoover and the FBI with turning America into a "police state" worse than anything ever achieved by Adolph Hitler. I needn't point out how this reckless slander, coming from an American business tycoon, has warmed the hearts—and served the propaganda purposes—of our country's enemies, who hate the FBI for reasons too obvious to need explanation.

Accomplishment?

Just what Wallace and his Fund for the Republic masters thought they were accomplishing by serving up this reeking propaganda dish to millions of American viewers is a mystery. Or is it?

Don't make the mistake of thinking that Wallace and the Fund for the Republic were taken by surprise by Eaton's outrageous remarks and were helpless to stop him from blurting them out over the air. These programs are not broadcast live. They are taped and edited in advance. So anything heard on the program, far from being beyond the control of Wallace and the Fund for the Republic, is, rather, exactly what they specifically WANT to have go out over the air.

With almost laughable irony, Eaton's scurrilous remarks about the FBI were diametrically self-contradictory. If America were the "police state" he said it was, he wouldn't have dared to say what he did over the air. He'd have been thrown into a concentration camp. Yet the last I heard, he was still peacefully enjoying his fat millions in his comfortable Cleveland mansion, unmolested by any Gestapo, unthreatened with any concentration camp. If this is a police state, it's a pretty inefficient one. Hitler would be ashamed of it.

Calling All Eggheads

By some cockeyed distortion of logic, Wallace and his ilk turn this sort of irresponsible junk into "a force for strengthening our democratic processes through open discussion of vital issues." That's a lot of egghead gobbledygook. It would be interesting to know just how Wallace, the Fund for the Republic, and ABC think Cyrus Eaton's public performance served any purpose (except our enemies' anti-American propaganda efforts) by announcing to the world that our democracy—a way of life which we are hopefully trying to sell to the world, at a cost of billions—is in reality a worse police state than Hitler Germany. If that's helping our democracy, I'll take vanilla.

Some will prate about "free speech" to condone Eaton's performance and excuse Wallace and his crowd from censure. Well, there are some 170,000,000 people, including hundreds of industrialists other than Cyrus Eaton, in America, all of whom are supposed to enjoy this same right of free speech. How come that out of all these millions of Americans, Wallace chose to single out somebody of Eaton's known views to grant the privilege of exercising free speech over a nationwide TV network?

"Free speech" means that if Eaton wants to go on the air, or get on a soapbox in the park, and

curse the FBI, he's got a right to do so. But it doesn't mean somebody has to INVITE him to do it as a "public service" over a national network, and pay for the facilities out of tax-exempt "educational" money, which is precisely what Wallace and the Fund for the Republic did.

If Eaton wants to pop off about the FBI, let him buy

his own air time. He can afford it.

Another odd angle to this whole business is that ABC, which had its fingers badly burned as the result of libel suits arising from Wallace's Mickey Cohen interview fiasco, should even allow Wallace on its network, let alone pay for the dubious privilege. This may be praised as turning the

other cheek in the true spirit of Christian charity, but it also seems to be asking for further trouble. Certainly exhibitions like the Cyrus Eaton thing are doing the network no good from the standpoint of public respect and prestige.

A number of TV programs are going to be

The enclosed tear sheet, referring to the propaganda campaign to discredit J. Edgar Hoover, covers some of the activity to which my informant had reference. Supposedly, the comrades are to use their sources in the Fund for the Republic, and other communication sources, to do the job.

According to my informant, the reason for the present stepped activity to smear Mr. Hoover is: "TO REPAIR THE HARM THAT IS BEING DONE BY MR. HOOVER'S NEW BOOK, MASTERS OF DECEIT".

May I just pose a personal comment. The self-seekers, the fence-sitters, the intellectual morons, and the self-serving political parasites, who aid and abet the Communist *FOR SELFISH PERSONAL GAIN,* cause, need a big swift kick in the seat of the pants.

On the humorous side. If I made such a comment in public, the comrades would accuse me of being for force and violence.

A People's Program FOR JOBS AND SECURITY

A national emergency exists.

More than five million Americans are out of work. Added millions are working part time. All told, one in every ten workers is jobless.

In many areas the situation is critical. Growing numbers have used up their unemployment benefits. Relief rolls are climbing. In some cities, breadlines have once again appeared. And among Negro, Puerto Rican and Mexican-American workers, the rate of unemployment is at least double the national average.

Millions of farmers, who have already suffered years of falling prices and incomes, now face the threat of economic collapse and the loss of their farms.

While jobs go down, prices go up. For those still working, the buying power of their take-home pay has dropped 5 per cent in the last year. And no one knows when the ax will fall and leave him jobless.

The economy is in a serious slump. It is already more severe than the recessions of 1948-49 and 1953-54, and it is steadily becoming worse. *The country stands at the threshold of a major depression.*

Just how bad things will get, no one knows. But whatever the future holds, suffering and hardship are already widespread. *The situation calls for drastic action.*

How did this come about? Not so long ago, the economy was booming. Industry was expanding as fast as available supplies of material and labor would permit. In a year and a half, investment in new plant and equipment jumped 50 per cent.

But there was no such growth of consumer markets. In the same period, consumer spending rose less than 10 per cent. As a result, excess capacity rapidly developed. Production was cut and workers were laid off. The boom ended and the slump set in.

PEOPLE VS. TRUSTS

The giant monopolies, which profited heavily in the boom, now seek to protect their profits at the expense of the working people.

In the face of a growing depression the Eisenhower Administration, which speaks for Big Business, cheerfully assures us that all is well. Like Hoover in bygone days, they proclaim that "prosperity is just around the corner."

All we need—we are told—is confidence. "There is nothing wrong with the nation's economy," says Vice President Nixon, "that a good dose of confidence won't cure."

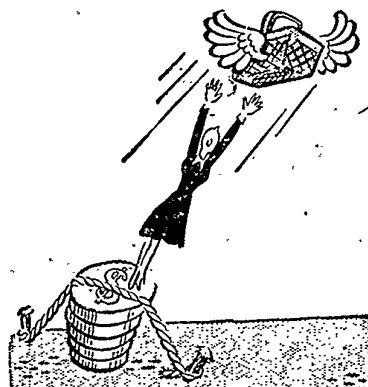

Aside from more confidence, the Eisenhower program calls chiefly for more arms. The launching of Sputnik is seized upon as an excuse. We are told that we must spend less on public works and public welfare, and more on guided missiles.

But as things grow worse, even the Administration is compelled to go further. It proposes a temporary extension of unemployment benefits for those who have used them up, and some half-hearted steps to speed up housing and public works programs.

With good reason, many Democrats have attacked the Eisenhower Administration's inactivity. They have proposed substantial improvements in unemployment compensation, immediate launching of a big public works program and other necessary actions.

Organized labor has also come forward with a program of action. It calls for raising purchasing power through wage increases, tax cuts, a higher minimum wage and improved social security pensions. It calls also for increased unemployment benefits, an extensive public works program, large-scale housing and school construction, and federal aid to distressed areas.

These proposals deserve the widest support. They offer a basis for a united nationwide fight for jobs. They must be fought for—around the collective bargaining table, in Congress, in every state legislature and city council, and in the November elec-

tions. The Communist Party gives wholehearted support to every such positive measure to combat unemployment and depression.

ARMS NO ANSWER

Some—including some labor leaders—look to bigger arms budgets as a solution. They believe that missiles mean jobs. But they are mistaken. Missiles are no real answer to the people's needs. In fact, for months the economy has been going downhill *even while military outlays have been going up.*

Furthermore, for the money spent, missile production offers little promise of jobs to unemployed workers. This is not mass production employing large numbers, but experimental production requiring only small numbers of skilled workers. Nor will this production take place in those aircraft and other shops where workers are now laid off.

Through massive increases in military spending, the downturn could perhaps be stemmed for a time. But this is like trying to cure one disease with another. Arms production is pure waste, and this waste must be paid for—through inflated prices and higher taxes, and through the sacrifice of schools, hospitals, pensions and other benefits for which the money could otherwise be spent. The American people are already paying for the more than \$40 billion a year which now goes down armaments ratholes. The more this is increased, the more heavily they will pay.

But there is an even greater price. Spending money for arms can be justified only on the grounds that the arms are needed for protection—that the country is in danger. Those who advocate bigger

arms budgets therefore try to justify them by magnifying the danger of war and by heightening anti-Soviet sentiment in our country.

Such a policy gives every encouragement to the warmongers—to the Dulles "brinkmanship" line and the spreading of artificial war fears. It discourages every move for world peace, and it vastly increases the deadly menace of nuclear war. This may bring huge profits to Big Business, but it is hardly a "cure" for unemployment.

Far more could be done to provide jobs by cutting outlays for arms and spending the money for socially useful purposes instead. And far more could be accomplished by lifting the cold-war embargo on trade with the Soviet Union, People's China and the other socialist countries.

That these countries offer big markets for American goods is today widely recognized. President Eisenhower

Program

1. Boost Purchasing Power

Support labor's demand for higher wages. Combat speed-up and deterioration of working conditions.

Revive and step up the fight for the shorter work week, both through collective bargaining and legislative action.

Raise the minimum wage to \$1.50 an hour. Support the Morse-Kelly bill (S-1267 and HR-4575) and the Kennedy bill (S-1854) to increase the number of workers covered by the wage-hour law.

Raise social security pensions. Support the Forand bill (HR-9467) to raise social security benefits and provide free medical and hospital care.

2. Reduce Taxes

Raise individual income tax exemptions from \$600 to \$1,000. Boost taxes on top-bracket incomes and close all loopholes. Cut sales, excise and other taxes bearing most heavily on those who earn least. Suspend withholding taxes for the duration of the emergency.

3. Curb Monopoly Prices

Control monopoly price-fixing through government regulation of monopoly prices or through government ownership and operation of enterprises to guarantee production of goods at reasonable prices.

4. Improve Unemployment Compensation

As an immediate measure, support the Kennedy-McCarthy bill (S-3244 and HR-10570) to raise benefits nationally to from half to two-thirds of earnings and extend duration to 39 weeks. Work for federal legislation to raise all benefits to two-thirds of earnings for as long as unemployment lasts.

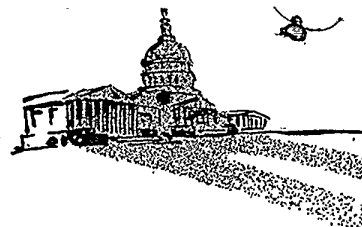

5. Provide Adequate Relief

Improve relief standards. Take emergency action to increase federal and state contributions to relief funds, with the calling of special sessions of state legislatures where necessary. Simplify and greatly expand the distribution of surplus foods. Restore free school lunch programs.

6. Ease Credit

Make cheap, long-term credit available through government sources to farmers, small businessmen, home owners and working people generally.

Establish a moratorium on mortgage and other debt payments for unemployed workers, with full protection against foreclosures and repossessions.

7. Increase Aid to Distressed Areas

Improve and speed up existing programs. Step up federal low-cost loans and grants for new plant construction and rehabilitation or replacement of obsolete facilities. Provide subsistence and retraining for displaced workers.

8. Expand Public Works Programs

Enact legislation to launch greatly expanded federal, state and local public works programs for constructing schools, hospitals and other public buildings, for construction of one million low-cost units a year, and for new conservation, flood control and power projects throughout the country.

9. Defend Labor's Rights

Defeat the anti-labor campaigns to impose national and state "right-to-work" laws. Repeal the Taft-Hartley Act and end its use as an anti-labor weapon through conspiracy trials and other devices.

10. End Discrimination in Employment

Renew the fight for effective FEPC laws on national, state and local levels. Strengthen the fight in shops and unions to end job discrimination against Negroes and other minority groups. Renew demands for FEP clauses in contracts. Wipe out the Jim-Crow practices which persist in large sections of the labor movement.

11. Aid the Farmers

Reverse the Eisenhower policy of cutting farm price supports. Raise support payments to assure a 100 per cent of parity.

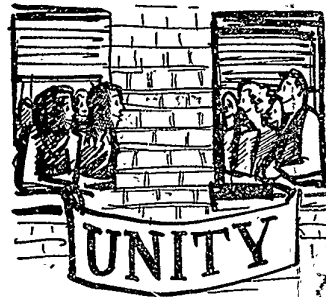

Enact legislation to ease the lot of farm laborers, especially migrant workers, and to provide for them all benefits now available to other workers.

12. Promote Peace and Trade

Press for East-West summit negotiations for peace and disarmament. End the embargo on trade with China. Open up all channels of trade with the socialist countries.

Reduce arms spending drastically and use the funds to increase spending for social welfare. Convert idle arms factories to peacetime production. Provide retraining, relocation, severance pay and other measures to assist workers displaced by these changes.

has himself said: "The Soviet capacity for export is matched by its capacity and willingness to import." The socialist countries want and will buy the trucks, farm equipment, machine tools, farm products and other goods which we can produce in such abundance.

The American people need a program for jobs and economic welfare based on peace, not war. They need a program which serves the interests of the people, not the profits of the trusts.

The Communist Party calls for united support of all proposals and programs which contribute to this end. And toward this end we offer the program presented here.

The purpose of this program is to protect the working people of our country from the ravages of depression, and against the efforts of Big Business to place the burden on their shoulders.

The government, at all levels, can and must take immediate steps to provide jobs and to aid the unemployed and all others suffering economic hardship. The money is available through increased taxes on top incomes, closing of tax loopholes, reduction of arm expenditures and other such means. What is necessary is that the money be used not to fatten the profits of the big corporations but to supply the needs of the people.

ORGANIZE THE JOBLESS

Such a program cannot be won without the most energetic and united struggle of the people against the monopolies.

Of key importance is the role of the unions, and especially the *organization of the unemployed*. It is the job of the unions in every area to organize the unemployed workers to fight for jobs and security, side by side with those still working. Failing this, many may fall prey to the propaganda of labor's enemies, and may be used by them against labor's interests.

In the neighborhoods, too, through the efforts of community organizations and other groups, cooperation of unemployed workers, small homeowners, small businessmen and other victims of the slump should be established.

To be effective, the struggle requires above all the unity of action of all sections of labor—AFL-CIO and independent. It requires also the united action of all those—workers, farmers, small business, the Negro people—who are oppressed and exploited by the monopolies. This unity needs to be expressed in the coming contract negotiations, in the fight for legislative action, and in the election in November of congressmen and other public officials who respond to the people's needs.

FRED
WRIGHT
FEDERATED
PRESS

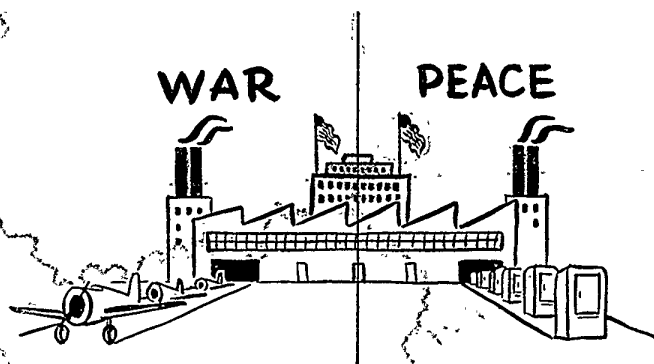

The above program is not offered as a cure for depression. The tendency of capitalism, in its never-ending drive for profits, to expand production without limit while it cuts the buying power of the workers to a minimum, is a built-in feature of the system. The boom-bust cycle with its recurring economic crises can therefore not be abolished as long as industry is privately owned and operated for private profit.

It is significant that while production falls and unemployment rises here, in the socialist countries the opposite is taking place. Thus, the Soviet Union announces a rise in production for the past year, and a continuing labor shortage.

The specter of depression and unemployment can be banished only in a socialist America—an America in which the mines, mills and factories are publicly owned and are operated for the benefit of all, not as a source of profits for the few.

* * *

But whatever differences may exist over the question of socialism or other issues, the great majority of Americans can unite on an immediate program to provide jobs and greater economic security for all of America's working people. To the realization of such a program, the Communist Party pledges its fullest support.

Issued by the NATIONAL COMMITTEE,
COMMUNIST PARTY, U.S.A.

The Communist Party of the United States of America is a working class political organization which bases itself on the principles of scientific socialism. It champions the immediate interests of the American working people, and strives to unite all those oppressed by the monopolies. In the tradition of William Sylvis, Eugene V. Debs and Charles E. Ruthenberg, its ultimate goal is a socialist America. For further information, write to

Doc, while I know you have knowledge of these matters, occasionally I will write when such conversations take place.

State Legislative Curbs Against Traitors Urged

Since I was one of the witnesses who testified against Communist Steve Nelson (alias Mesarosh; alias Fleishner and "The Carpenter") in the Pennsylvania sedition case, I would like to add my comments to those in your recent letter from Rep. James B. Utt in support of Senate Bill HR 3. This bill would return to the States their sovereign right to defend themselves against conspirators and seditionists.

For nine years I posed as a Communist for the Federal Bureau of Investigation. During those long and trying years I observed from within the Communist Party, how easily Soviet agents and their cohorts, the "American" Communists and their supporters, have been able to manipulate, both overtly and covertly, against our Federal and State governments.

It is my firm conviction that lack of adequate and appropriate legislation has to a large extent hindered the collective efforts of Federal and State law enforcement agencies in coping with treason.

Now that the United States Supreme Court has rendered valueless the tenor of the Smith Act and the State sedition act, it is apparent that our republic is in serious danger and that new legislative steps are in order if we are to survive as a free nation.

Therefore, I urge the Congress of the United States to pass HR 3. I further suggest to the Legislatures of California and every other State that they review their sedition and conspiracy laws with a view to providing adequate State laws to protect us from the Red vermin.

In suggesting this remedial legislation, I have in mind the timely warning of Bernard Baruch: "If we ever lose the fight against Communism, we lose forever."

Think it over, then write to your Congressmen and State legislators.

Telling them you want laws which will protect your home, your community, your State and your nation from traitors within.

MATT CVETIC
Hollywood.

Let me commend your paper for publishing the splendid letter, "Congressman Explains Court Curb Measure," in last Monday's Letter Page.

Rep. James B. Utt summarized superbly the foremost problem inherent in our representative form of government — the natural temptation of individual men and of cohesive groups of like-minded men to usurp by pseudo-legal means the natural prerogatives of other branches of government.

Josiah Royce foresaw this danger and predicted the eventual fall of our form of government within this century, a "fall" via reinterpretation of ideals.

I believe that this interpretation of ideas has been pushed off its timetable by the continual recurrence of revivals of personal religion, by which some sort of personal accounting for one's own soul has become a fixture in American thinking.

When a man realizes his personal accountability to God, he cannot vote away lightly his responsibility for his fellow men and for his own children. He therefore cannot delegate to some irresponsible hierarchy of men (however noble) the power to override at will the decisions and actions of grass-root lawmakers.

When local people cease to be important, so does human life in general.

And we pastors preach of a Saviour who deemed his next-door neighbors worth more than his own life, even though they were mere lonely individuals.

in the State of California. Healey told Hallman that "we should continue to work as a part of the Democratic Party and not isolate ourselves from the masses by forming a separate Party for Socialism." Further Healey allegedly told Hallman, according to [redacted] that he shouldn't be here raising money for this New York State venture, because they need all the money they can get to fight the right to work bill, the House Committee on Un-American Activities which is holding hearings here this month, Bill Knowland, and other forces of reaction.

Healey also told Hallman that she has been subpoenaed by the H.U.A.C., according to [redacted].

Red Curb Advocate

I wish to congratulate you in the splendid letter from Congressman James B. Utt which appeared in your esteemed newspaper July 28 regarding House Bill No. 3, which would restore to the respective States of the Union the right to legislate on anti-subversive activities.

I was particularly pleased about this letter because one of the men who were most responsible for the conviction of the arch-Communist and revolutionary, Steve Nelson, was a man who now is living in Los Angeles. I refer to Matt Cvetic, who gave some 10 years of his life tracking down those who would destroy all that we hold dear in the American way of life.

★

As an undercover agent for the FBI, Mr. Cvetic attended more than 3000 meetings with Soviet agents, their secret police and members of the Communist Party. In this capacity he got the information on Steve Nelson's revolutionary activities which brought about Nelson's conviction.

Mr. Cvetic's articles in the Saturday Evening Post, titled "I Was a Communist for the FBI," reveal how much we all are indebted to him for his heroic work in protecting the security of our beloved country.

JUSTICE MICHAEL A. MUSMANNO,

Supreme Court of Pennsylvania, Pittsburgh.

A long-time foe of Red plotters, acting on his own (before his elevation to the Supreme Court bench) Justice Musmanno himself once made a citizen's arrest of at least three notorious Communists including Steve Nelson.

'Reds Try To Trick Negroes'

The Communists have raised their usual cry about the House Un-American Activities Committee; a committee which seeks only to protect America.

As a former undercover agent who posed as a Communist for the FBI for nine years, it is obvious to me why the Reds hope to destroy this and related committees.

On orders from the Kremlin the Reds spent millions trying to discredit the FBI and destroy Congressional and State bodies entrusted with our security.

From within the Communist Party, I saw first-hand the devastation wrought to the Reds' conspiratorial apparatus by Congressional exposures.

Communists have injected themselves into the segregation issue. The Red tactic of trying to use the Negro as a pawn is an old one, but it is to the eternal credit of the American Negro that he has always seen through the Marxists' scheme.

Having won his freedom here, he has no intention of being tricked into a more brutal form of slavery under international Communism.

It is imperative that the Congressional committees, the FBI, State, and other agencies concerned with our nation's security, be strengthened immediately.

Dear [Redacted]

Your letter dated February 3, 1959, with its enclosure, has been received and I appreciate the motive which prompted your communication.

For your information, Mr. Matt Cvetic assisted this Bureau as an informant from February, 1943, until January, 1950, and he was compensated for information furnished by him during that time. He was not, however, a Special Agent of the FBI. Inasmuch as Mr. Cvetic no longer furnishes confidential information to the FBI and this Bureau does not exercise any degree of control over his current activities, I am sure you can understand that the FBI cannot endorse, comment upon, or be held responsible for any statements made by him since January, 1950.

I would also like to advise that the function of this Bureau as a fact-gathering agency does not extend to furnishing evaluations concerning the character or integrity of any individual, organization or publication. I regret, therefore, that I am unable to comment upon the contents of the publication you enclosed with your letter.

NOTE FOR SACS, BALTIMORE AND LOS ANGELES:

Enclosed is a copy of correspondent's communication. She enclosed with her letter Bulletin No. 76 dated January and February, 1959, issued by the American Public Relations Forum, Inc., Box 587, Burbank, California. This bulletin is anticommunist in nature and among other things discusses mental health and refers to an article by Matt Cvetic in the March issue of "American Mercury." Cvetic alleges that mental health programs in this country are a part of communist psychological warfare.

Bufiles contain no identifiable data concerning the correspondent. Bufiles also contain no identifiable data regarding the background of American Public Relations Forum, Inc., although the Bureau has from time to time received inquiries concerning this organization.

Gentlemen:

Quite recently, a friend of mine gave me the enclosed pamphlet to read. Since I am mostly busy with the chores of a housewife and mother, I find little time to inform myself regarding the extent of communistic infiltration. At the same time, I regard with suspicion these persons who see a "Red" behind every tree, so to speak --

Will you tell me whether Matt Cvetic, referred to at the bottom of page 2 of the enclosed pamphlet, is a "former Communist for the F.B.I."? And will you, furthermore, tell me whether his charges in this pamphlet -- or in the March issue of American Mercury -- are valid? Or do you repudiate them?

Thank you.

Yours truly

b6

P.S. The reason, of course, that I am concerned is that I should hate to think that I was neglecting terribly my duties as a citizen by continuing to have faith that there are persons in positions of trust and of high-governmental rank who are going to take care of the commie-infiltration for me -- so I can continue with my household chores!!

ReBulet to Baltimore, 2/26/59.

It is noted that New York received copies of reBulet although New York apparently prepared no reports in this case. Norfolk did not receive copies of reBulet but Norfolk reports were listed in the enclosure prepared by the Coast Guard. In view of the above, Pittsburgh is enclosing autostats of reBulet for New York and Norfolk.

C-113 in report of SA MAC DONALD of 12/7/44 and T-16 in report of SA HENDRICKS of 10/9/51 is MATTHEW CVETIC, former C-113 (Bufile 100-372409) who is well known to the Bureau. The latest information available to Pittsburgh indicates that as of December, 1958, he was residing at P. O. Box 1618, Hollywood 28, Calif. CVETIC is not contacted without prior Bureau authority and Pittsburgh is not cognizant of the Bureau's wishes concerning his availability as a witness for other agencies at the present time. It is suggested that the Los Angeles Office be appropriately advised by the Bureau if CVETIC is to be contacted in connection with instant case. ||

Pittsburgh will submit a separate communication regarding the other sources set out in the aforementioned Coast Guard enclosure.

Counterspy to Speak at Encino Center

Matthew Cvetic, the FBI counterspy who outwitted upper echelon Reds, including Soviet secret police, for nine years, will speak at Encino Community Center, 4935 Balboa Blvd., at 8 p.m. March 24.

Cvetic's daring double life was revealed for the first time when he appeared before a congressional committee, testifying against a number of Communist conspirators who were later freed by the Supreme Court.

His appearance at the Encino Community Center will be sponsored by the Mid-Valley Committee for the American Way of Life.

SECURITY MATTER - C

Re your airtel 3-13-59.

In accordance with the suggestion of the
Pittsburgh Office, St. Louis should interview
[redacted] and determine from him if there is any
objection to the Bureau's contacting [redacted]
[redacted]

Unless [redacted] has some valid reason
indicating that interviews with [redacted] are
undesirable, leads should be set out to interview
them as potential witnesses for a Coast Guard hearing.

With regard to [redacted] and
Matthew Cvetic, the Bureau intends to inform
Coast Guard, without revealing the identity of these
two individuals, that the use of these persons as
witnesses has been disapproved by the Department.
It will not be necessary for Los Angeles to contact
Cvetic in connection with this matter.

As an example how poorly informed many people are in this area, when the American Legion recently called attention to the fact Red vermin have worked their way back into the motion picture and TV field, certain producers took time to publicly resent the allegation.

Instead of protesting, these producers should have welcomed exposing the Reds. Such producers cause more than a slight ripple of laughter in Red circles, I can assure you.

How are Reds able to make such progress in so relatively short a time?

Because few people have any conception of the danger of one communist in a key position.

The Reds are trained to get into key posts everywhere and there carry on Communist work. Few people realize that one Red strategically placed can corrupt a news column, a motion picture, a radio or TV program.

How? Simply by making one slight, meaningful change or planned mistake in copy of script. One rotten apple can spoil a barrelful, and it takes only one Red to mislead millions of innocent Americans.

When we Americans realize there is no such thing as a "harmless" Red, then we will start making some real progress against them.

I think it timely to remind many prominent people in Los Angeles County, and especially those who have been busy entertaining Reds and organizing cultural exchanges for them, that the communists have a special role for them if or when communism takes over this country.

The Reds intend to make such people a part of the "shovel brigade," which, prodded by Red bayonets, will wend its way to open fields to dig common graves for the brigade's own members.

Remember, Khrushchev's recent promise that "we will bury you"? Yes, they intend to bury us after we dig our own graves — that is a very definite part of the communist plan for "the capitalist swine."

In Washington recently some "authority" came up with the bright idea that we should permit the employment of Reds in non-sensitive positions. When you are dealing with a conspirator, just what is a "non-sensitive position"?

Shortly after I dropped my masquerade as a Communist and revealed I was an FBI agent testifying against Soviet secret agents, I was attacked by a would-be "American" Red hero with a knife.

And what was the "non-sensitive" position he was holding? He was only a bus boy in a restaurant.

MATT CVETIC,
Hollywood.

Mr. Cvetic will be remembered as the FBI counterspy who duped Soviet secret agents, including the notorious Gerhardt Eisler, for nearly 10 years before exposing the Red conspiracy in this country.—Ed.

HAROLD TOTTEEN
INFORMATION CONCERNING

On 8/31/59, a letter was received from MATTHEW CVETIC of 8400 Sunset Boulevard, Los Angeles, California, who was an informant of the FBI on Communist matters for approximately seven years from 1943 to 1950, submitting to this office a two page typewritten report on the above named individual which he stated that he had received from "an informant." CVETIC stated that he was not in a position to vouch for the integrity of his informant or to substantiate the information contained therein.

It should be noted that item number seven of the report of the informant of CVETIC contains extremely slanderous information concerning the Director of the FBI.

The original informant's report has been returned to MATTHEW CVETIC in accordance with his request.

The indices of the Los Angeles Office are negative as to HAROLD TOTTEEN, however, the indices contain information concerning a HAROLD WALLACE TOTTEEN, Sr., Dallas file 105-795 of Sherman, Texas, who in 1958 was president of the Washington Iron Workers, Sherman, Texas, and had been identified as an active member of the National States Rights Party.

It is suggested that the Dallas Office, in the event the Bureau does not have full information concerning HAROLD TOTTEEN, Sherman and Dennison, Texas, furnish the Bureau with his identity and any available information.

The Los Angeles Office will hold in abeyance any interview with CVETIC to determine the identity of his informant until and unless advised by the Bureau.

P.D. HAS BEEN ADVISED OF
GUN CARRYING. - EP

Dear Mr. Burke:

Attn: W.W. Burke, S.A.C.

With reference to one Harold Totten the following is added data supplied by my informant in a letter. May I repeat that I am in no position to vouch for the integrity of the informant, nor am I in a position to authenticate any of the information. The following contains information that subject, Harold Totten, totes a gun.

Quoting excerpt from letter from informant:

"About the man I spoke of while you were here, you know more in the meantime. He has hurt [] terribly and [] was one of a long line and presumably not the last. This man is a very sly and devilish person, does everything premeditated and well organized. It will be very difficult to put the finger on him but his trouble-making must somehow be stopped. The little I know, I assure you I have seen it with my own eyes that he stirred up friend against friend, not one time, but all the time, et no one to date could put the finger on him. Every red-blooded American believes him to be a dead-set anti-zionist, yet, I know for sure that he is actually "hating" in the very sense of the word, "all Christians. In my mind it simply does not make sense. Because he is actually a coward, he is doubly precautions. I have been told by a bank-employee that he is deep in debt, indeed, very deep. [] has been told the same, but again, it simply doesn't make sense to me. [] material loss with him is quite a nice sum and I have all reasons to believe that others made the same experience, therefore, how come? to be in the red in the bank? What always puzzled me is that he never is without a gun for one single minute. No one, being sane, does such a thing, or does he? It's alright for someone whose work is dangerous by nature, but not for a plant mgr. People in his home-town and county seem to be afraid of him. Sometimes it seemed to me that his anti-zionist propaganda is "ordered propaganda" by the source he smears. Anyhow, good citizens who fight our battle must be warned, else a lot of grief will come over perfect decent and honest men."

End of quote.

Sincerely,

Matthew Cvetic

INFORMATION CONCERNING

Remylet dated 9/3/59 regarding above-named individual.

This is to advise that a letter was received from MATTHEW CVETIC on 9/10/59, in which he stated that he had received additional information from his informant regarding TOTTEN. CVETIC again reiterated that he could not vouch for the integrity of his informant or the authenticity of information furnished by him. The additional information is as follows:

TOTTEN carries a gun constantly, has caused financial and personal loss to one BOB, is anti-semitic and anti-Christian. He is a coward, and according to one of the bank employees, is deeply in debt.

It may be that the Dallas Office may in accordance with recent Bureau instructions, desire to advise the proper law enforcement agencies of the allegation that TOTTEN is reported to constantly carry a gun.

This office has not made any contact with CVETIC in regard to this matter and will not do so until and unless so advised by the Bureau.

It was suggested that the Dallas Office should furnish Bureau with all available pertinent information concerning HAROLD TOTTEN.

Bureau in airtel of 9/11/59 to Los Angeles and Dallas instructed that MATTHEW CVETIC should be contacted immediately in order that the identity of the informant who submitted the report to which reference is made might be ascertained and the informant interviewed to determine the circumstances concerning the receipt of the derogatory information contained in his report attributed to HAROLD TOTTEN. Bureau instructed that the results of the interview with CVETIC's informant should be furnished Bureau promptly in order that consideration may be given to contacting TOTTEN.

Bureau by airtel of 9/18/59 inquired as to status of this matter and the interview with CVETIC in order to establish the identity of his informant.

For the Bureau's information and that of interested offices, it was ascertained on 9/14/59 that MATTHEW CVETIC was out of the city of Los Angeles and would not be available for interview until the morning of 9/21/59.

On 9/21/59 MATTHEW CVETIC, of Sunset Tower West, 8400 Sunset Blvd., Los Angeles, Calif., was interviewed by SAs JOHN S. TEMPLE and MERLE L. PARKER. He stated that his informant or source who furnished the information concerning HAROLD TOTTEN was [redacted] who is believed to live in a small town in the vicinity of [redacted]. There is being enclosed herewith for the Denver Office a copy of CVETIC's informant's report on HAROLD TOTTEN, which will assist in properly interviewing [redacted] re the allegations which he made in his report concerning HAROLD TOTTEN.

Dallas and Denver will give this matter expeditious attention in accordance with Bureau instructions.

Freedom Club Slates Counterspy for FBI

Matt Cvetic, who for nine years posed as a Communist while he actually was working for the Federal Bureau of Identification, will speak in Riverside Sept. 24 under auspices of the local Freedom Club.

Cvetic, whose counterspy activity within the Communist Party ended in 1950, will detail his long battle against the American Communist machinery in a talk titled, "It's Your Decision."

He will speak at a luncheon meeting open to the public. It will be held at the Elks Club on Brockton avenue, south of Jurupa avenue.

RESERVATIONS for the meeting may be obtained from any member of the Freedom Club, or by telephoning the club president, Mrs. Bert Kwist at OV 6-6374. Mrs. Kwist urged early reservations, and noted the arrangements are limited to 250 persons.

Cvetic began his counterspy

work for the FBI in 1941, at the outbreak of World War II.

He successfully infiltrated Communist ranks and rose to the position of organizer in the party's professional branch, a unit spe-

cializing in spreading propaganda and organizing Communist cells among scientific, legal, medical, governmental and health and welfare field professional people.

He later was shifted to a division of the party's leading group, with supervision over the Youth Labor League, an arm of the Communist apparatus.

HE REPORTED his activities to the FBI throughout the nine-year posing, and revealed his counterspy role finally when he testified before a Congressional hearing into Communist activities.

Cvetic's long undercover operation was the subject of a motion picture and a radio series. He detailed them in a Saturday Evening Post story and at present is writing a book, "Escape to Nowhere."

Cvetic's experiences paralleled those of Herbert Philbrick, also a counterspy for the FBI, whose activities were dramatized in a popular television series.

FROM: SAC, DALLAS (105-817)
SUBJECT: HAROLD WALLACE TOTTEN
INFORMATION CONCERNING
(INTERNAL SECURITY)

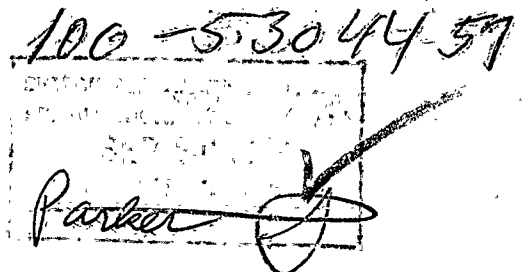

Re Los Angeles Air-Tel to Bureau 9/21/59.

For information of San Antonio Office, on 8/31/59, a letter was received by the Los Angeles Office from MATTHEW CVETIC, Los Angeles, Calif., who was a former Bureau informant on Communist matters from approximately 1943 to 1950, submitting to the Los Angeles Office a 2-page typewritten report concerning the above captioned individual which CVETIC stated he received from "an informant." CVETIC stated he was not in a position to vouch for the integrity of his informant or to substantiate the information contained therein. It was noted in Item #7 of the informant's report, extremely slanderous information was set out concerning Director of the FBI.

The Bureau by Air-Tel of 9/11/59, instructed that MATTHEW CVETIC be contacted in order to determine the identity of his informant who submitted the report. Bureau instructed that results of interview with MATTHEW CVETIC's informant should be furnished Bureau promptly in order that consideration may be given to contacting TOTTEN.

On 9/21/59, CVETIC advised Agents of the Los Angeles Office that his informant or source who furnished the information concerning TOTTEN was one KARL GERCHSHEIMER, who is believed to live in a small town in the vicinity of Dallas, Texas. CVETIC stated

that GERCHSHEIMER was born in Germany and is now a naturalized citizen. He is presently in Colorado Springs, Colorado, where he is engaged in writing a book entitled "History and Science of Money." Dallas Office was requested to check indices on KARL GERCHSHEIMER and furnish any available information concerning him to the Denver Office in order that it might be used by Denver in conducting interview of GERCHSHEIMER concerning the subject.

Dallas Office indices reflect that a KARL GERCHSHEIMER, possibly identical with this individual, was the subject of an espionage case entitled "KARL GERCHSHEIMER, WA., ESPIONAGE," San Antonio - OO. The Bureau and San Antonio should refer to the reports of SA J. R. CALHOUN dated Dallas, 10/3/40, and SA R. D. AUERBACH, Houston, 11/25/40. Dallas file contains little or no information regarding this case.

San Antonio is requested to furnish full background on KARL GERCHSHEIMER to Denver.

Re Los Angeles airtel to Bureau dated 9/21/59.

On 9/25/59, [redacted]

[redacted] advised SA EDWARD J. RODGERS, JR. that her husband is presently out of town, in Philadelphia, Pa. She advised that KARL GERCHSHEIMER, from East Bernard, Texas, was a house guest at her home from approximately June to the last of August, 1959, when she arranged to have him move to make room for some relatives. She said he allegedly has been helping her husband translate some German books and allegedly is writing a book on currency. [redacted] expressed a keen dislike for GERCHSHEIMER, stating she thought he was trying to "take" her husband financially. She said her husband had arranged to finance GERCHSHEIMER and another associate named [redacted] from New York City, N.Y., in a short trip to Europe. She said that trip was allegedly for research in connection with the book on currency they are allegedly writing. She said that GERCHSHEIMER is a rude man and she advised she learned that he has [redacted]. Further, that he exerts a strong influence on her husband; tells him what to eat, advises him on all his small personal matters.

She said she does not trust him and feels that she does not know his true purpose in coming to Colorado Springs. She said [] is presently suing her husband in U. S. District Court, Denver, Colo. She said she does not know the reason for the litigation.

b6
b7C

[] on 9/25/59, advised SA's RODGERS and [] that GERCHSHEIMER uses [] office and has been at Colorado Springs for about eight weeks. She said he has been handling [] affairs for him, particularly his correspondence. She advised that she understood he had completed a book concerning money or currency, possibly not written under the name GERCHSHEIMER, which he has sent to an unknown party for review prior to submission to a publisher. She said that presently he is helping to answer [] correspondence.

It is to be noted that [] is an extremely wealthy individual at Colorado Springs who is a self-styled "patriot" who has in the past been a prolific correspondent with the Bureau, advising from time to time of individuals whom he considers subversive. [] maintains files on persons whom he considers subversive. He has in the past corresponded extensively with persons whom he considers to have the same political views as his own. He professes to be anti-Communist and anti-Fascist. In the past he has been in contact with persons who appear to be extremely anti-Semitic. [] is in his late sixties or early seventies and appears to be in poor health.

b6
b7C

KARI GERCHSHEIMER was interviewed by SA's RODGERS and [] at [] office on 9/25/59. He advised that HAROLD TOTTEN is the owner of the Washington Iron Works, Sherman, Texas. He said that actually TOTTEN's 30-year-old father is the founder of the business but that HAROLD TOTTEN operates it. He commented that TOTTEN cheats his own father and gives him barely enough money on which to live.

b6
b7C

GERCHSHEIMER advised he associated with TOTTEN for about two years selling contracts for supply and repair of crank shafts for oil drilling outfits. He said he disassociated himself with TOTTEN about November, 1958. He said that he, in all, saw TOTTEN perhaps 45 or 50 times during that period of time. He commented that TOTTEN poses as a "staunch patriot" and is outwardly anti-Semitic. He said he had seen printed "throw-aways" and "stickers" which had been printed for TOTTEN by Frantz Printing Co., Sherman, Texas, and Manney Co., 1041 Isbell Rd., Ft. Worth, Texas, which were extremely anti-Semitic. He advised TOTTEN had his employees sometimes post these on the Jewish-operated business establishments which they might contact. He said, however, he believes that TOTTEN, in his outspoken feelings towards the Jews, is actually camouflaging his true feelings which he believes to be very much pro-Jewish. He said he believes TOTTEN feeds information to the Anti-Defamation League but could not cite any examples to support his contention. He said, however, that one instance of his true character, in reference to Jewry, was that he openly backed former Admiral of the U. S. Navy, (FNU) CROMMELIN, who ran for Governor of the State of Alabama, and who allegedly, according to GERCHSHEIMER, is a personal friend of CONDE MCGINLEY, the editor of "Common Sense," published in Union, New Jersey. He said that although TOTTEN claimed to "back" CROMMELIN, he actually spread rumors and gossip to the effect that CROMMELIN and MCGINLEY were "agents" of the Anti-Defamation League.

GERCHSHEIMER said that TOTTEN appears to be a man who "stirs up trouble" and pointed out that he was responsible for burning crosses around Sherman, Texas, "just to stir people up." He also said that TOTTEN launched, from his ranch, five miles east and south of Dennison, Texas, flying saucers. He said he didn't know why, but he assumed it was just to "stir people up." He said that TOTTEN could very well be "a mad man." He said TOTTEN is always armed; that he carries a revolver in his car and always has one on his desk in his office and at his home in close proximity to him.

TOTTEN, according to GERCHSHEIMER, owes quite a bit of money and allegedly a [redacted] of the

b6
b7c

DN 100-8400

Merchants and Planters Bank, Sherman, Texas, knows about GERCHSHEIMER's personal affairs and perhaps could furnish a great deal of information concerning TOTTEN's background and, conceivably, might know something about the alleged remarks passed by TOTTEN concerning the Director. [redacted] according to GERCHSHEIMER, knows all of TOTTEN's associates and might know others who could have heard TOTTEN's comments about the Director.

b6
b7C

GERCHSHEIMER claims that TOTTEN owes him money on commissions in connection with crankshaft contracts but GERCHSHEIMER says he had no access to TOTTEN's books and had no written contracts with him, all of them being oral in nature.

GERCHSHEIMER said that one of TOTTEN's close associates is one [redacted] who is associated with him in business. He said that [redacted] who is an artist, actually disapproves of [redacted] association with TOTTEN. [redacted] wife, he said, once painted the scene depicting "The Last Supper," and TOTTEN, according to GERCHSHEIMER, told [redacted] he shouldn't allow his wife "to paint such stuff." GERCHSHEIMER said TOTTEN is not only anti-Jewish but anti-Christian.

b6
b7C

GERCHSHEIMER advised further that TOTTEN subscribes to a magazine published by homosexuals. The name of the magazine could not be recalled by GERCHSHEIMER. He said he has no information indicating whether TOTTEN, himself, is or is not a homosexual, but said he suspected TOTTEN of having an improper relationship with [redacted]

b6
b7C

GERCHSHEIMER advised that TOTTEN is visited from time to time by persons whom TOTTEN considers "staunch patriots." He said TOTTEN lures them into conversations about the Director's book "Masters of Deceit" and then comments that "he has heard" that "HOOVER is a homo." GERCHSHEIMER said that TOTTEN made the statement to him and also to [redacted] that "he had heard that HOOVER is a homo;" however, he claimed TOTTEN never disclosed the source of his information. GERCHSHEIMER was unable to furnish the names of any of these alleged "staunch patriot" acquaintances of TOTTEN but said there were a lot of them in the Sherman area.

b6
b7C

DN 100-8400

GERCHSHEIMER expressed the opinion that TOTTEN would probably never admit having made such a statement about the Director but he said that anyone who might be introduced to TOTTEN as a "staunch patriot" would probably be able to elicit the information from him under suitable pretext.

GERCHSHEIMER, during the interview, volubly furnished the following information about himself:

He advised he is 56 years of age and was born in Wurtzburg, Germany. He claimed to be an economist and advised he had studied at University of Berlin, Barcelona, Spain, and in South America. He advised that during World War II he was employed by I. G. FARBEN in Central and South America as an economist. He said that at one time in 1934, the Mexican Commissioner of Police had requested of the Farben company the loan of one of their German employees to be used for the purpose of instructing the Mexican Government in how to set up a highway patrol. He said that at this time, in connection with a study of highway patrols, he went on a three-month tour of the United States and met his present wife in San Antonio, Texas, and also allegedly met [redacted] who at that time was a Captain in the Texas Highway Patrol. He claimed to have demonstrated the shooting of a Thompson sub-machine gun for the Texas Highway Patrol with [redacted] having been present and very much impressed with GERCHSHEIMER's ability, although he claimed never to have handled the weapon prior thereto. He admittedly had been taught to fire a light German machinegun while in Germany.

b6
b7c

Later, according to GERCHSHEIMER, he returned to Bavaria with his wife, where he was interviewed by U. S. Army CIC agents, and then eventually was given the job of Property Manager for the U. S. military government in Bavaria. He said he came into disrepute later in this position when he was asked by the Minister President of Bavaria to formulate a new currency inasmuch as the old currency was the HITLER administration Mark. He said he formulated a plan whereby he recommended a currency based on a two billion gold reserve. The assets of Bavaria at the time, he said, were seven billion in gold. He said he was criticized by three "Jews" who claimed they were from the

DN 100-8400

Comptroller's Office and working under a high-ranking American General. He claimed he was under house arrest for three months after this and was brought before a denazification board where he was accused of being a Nazi. He claimed he was able to prove that he had a cousin who had the same name as his own, who was a Nazi, but who at the time of the hearing was a prisoner of the Russians. He claimed too that the alleged cousin was much younger than he and that he had never met this cousin. He claimed he was exonerated and in 1950, came to the U.S. because his wife (who was from San Antonio) could not stand the climate of Bavaria and wanted to return to Texas. He said he was able to secure a passport through proper channels and came to the U.S. in 1950, arriving at Houston, Texas. He said he was naturalized as a U.S. citizen in 1953. He said he established a home in East Bernard, Texas, and advised his home is worth approximately \$30,000.

GERCHSHEIMER was asked specifically whether or not he had ever been an agent of the German Government during World War II and he denied that he had.

Concerning his association with [] he advised he met him through TOTEN about two years ago. He said [] had a financial interest in the Washington Iron Works and apparently considered TOTEN to be in the nature of a "staunch patriotic" friend. He advised he considered [] to be a man who was sincere and patriotic and extremely "rightist in political thought." He was asked to explain the term "rightist" and said the term applied to anyone who was pro-American; who believed in the U. S. Constitution; was anti-Communist, "which necessarily implied being somewhat anti-Jewish since so many Jews are involved in Communism," and anti-Fascist. GERCHSHEIMER said he was trying to get [] away from all of his political-type activity and thinking and was trying to get him interested in a motor which he said was to be operated on the principle of "implosion" rather than "explosion." He said it operated on a centripetal rather than a centrifugal principle of force. He advised the motor is revolutionary and its power is so phenomenal that it can "cause a tornado in a water glass."

b6
b7c

DN100-8400

GERCHSHEIMER said that the motor invention is so extraordinary that he has kept it completely confidential and only he and [] know the invention is here. He said he was furnishing this information to Agents on a confidential basis.

He said there is a man in New York who is presently suing [] He said the man is a former friend of [] whom TOTTEN has prejudiced against [] He did not identify this individual in New York but indicated the suit was over the invention.

b6
b7C

GERCHSHEIMER was asked whether or not he had translated any German books for [] and he said he had not. He said he was answering some of [] routine correspondence but was chiefly devoting his time to the motor invention. He pilled out a file drawer which contained a number of folders and said, "you see the invention is right here."

b6
b7C

GERCHSHEIMER said he was aware of the Bureau's source of information in this case, he thought, but Agents, during the interview with him, did not mention the name of MATTHEW CVETIG.

GERCHSHEIMER said he believed he would be at Colorado Springs if further interview necessary, and available through [] office for perhaps one year. He said he would maintain his home, however, at East Bernard, Texas.

IT IS RECOMMENDED THAT THE BUREAU SEARCH INDICES ON KARL GERCHSHEIMER.

FBI Communist Cvetic Tells Of Infiltration

By T. E. FOREMAN

The Communist conspiracy in America is one which seeks to infiltrate many walks of life, including the schools and the clergy, according to former FBI counterespionage specialist Cvetic. Cvetic told the Riverside Press-Enterprise in an interview yesterday that during the 10 years he posed as a member of the Communist Party in order to provide information on their activities to the FBI, he saw many instances of Communist influence in both the church and the schools.

AS EVIDENCE of the former, he said that one of his fellow party members, a man employed to check the loyalties of Communists in the party, was a minister in a Pittsburgh church. He said also that at one time he was told by his Communist Party leader to join a church, become active in it and try to be elected to the church board, to be in a position to spread Communist influence.

Regarding the schools, he said that in 1949 the party in America received orders from Stalin to establish a youth movement on the campuses of colleges and high schools. The resulting Labor Youth League, he said, within eight months had more than 25,000 members.

Later, when it had been exposed, the Labor Youth League name was dropped and the organizations are now referred to as study groups to teach impressionable young minds the principles of Marxism, Cvetic said.

"SHOULD STUDENTS be taught about communism in school?" he asked. "Of course they should, but they should be taught the truth about it, including the truth about Tibet, Red China, Poland and the other examples of what communism really stands for."

Cvetic noted that Russian premier Khrushchev has made references to God and Christ in his tour of America.

"If Khrushchev really believes in Christ, he can prove it by kneeling down and asking forgiveness for what he has done. He can prove it by giving Hungary its freedom, or in many other ways," he said.

OF THE KHRUSHCHEV visit to America, Cvetic also said, "For the first time in our history, Americans are being asked to keep their mouths shut—in deference to a man who has shut tens of thousands of mouths with a bullet in the back of the head."

"There is no freedom in Russia, and for 10 days we've had no freedom here," he added.

Telling of the period from 1941 to 1950 that he worked as a member of the Communist Party at the request of the FBI, Cvetic said: "Would I do it again? I think I would, because of some things my Dad and Mother taught me."

"THEY TAUGHT me that we not have only many privileges in this country, but we have responsibilities—to our nation, to our fellow men, to God and to our own souls."

Eighteen years of fighting against communism, he said, have convinced him of one principle. The American people have to make a choice between two courses—communism or freedom.

"There is no middle ground. You can't be a little bit communist," he said.

"TOO MANY people can't even give you a definition of Americanism. To me, Americanism means freedom of thought, freedom of speech, freedom of the press and freedom of religion, according to the Constitution. I hope to God that it never becomes outmoded."

Cvetic was introduced by former Congressman John Phillips. Phillips recalled that in 1934 Riverside County was faced with an active Communist threat directed against farm workers, and that alerted citizens repelled the threat. Seven Communist leaders were arrested for vagrancy and given jail sentences of from a year to 18 months.

"I believe the threat to us today is even more serious," Phillips said. "I wonder what has happened to Riverside County since 1934."

RE: EDWARD CARL SCHNEIDER,
ALIEN; and CARL SCHNEIDER
(INTERNAL SECURITY)

Re Denver airtel September 26, 1949.

For the information of the Denver Office, Carl Gerchsheimer, born November 4, 1906, in Munich, Bavaria, Germany, was from 1939 to 1945 the subject of "Subversive Activities" and "Espionage - C" investigations, San Antonio, office of origin. He was arrested on a Presidential warrant as an enemy alien on December 9, 1941, and interned. He was repatriated to Germany on the SS "Grinsheim" which departed from Jersey City, New Jersey, on January 7, 1945. The Bureau file on Gerchsheimer does not reveal his return to the United States or his naturalization; however, Immigration and Naturalization Service (INS), San Antonio Office, requested a name check on him. A Bureau memorandum dated July 24, 1942, captioned "Carl Gerchsheimer, A - 3343723, B - 11/6/1943, in Germany," was furnished to INS, San Antonio, Texas, advising that investigative reports on this individual had previously been furnished that agency.

The attention of the San Antonio Office is directed to page six of airtel indicating that Gerchsheimer advised of his naturalization in 1935. The San Antonio Office should check with INS to determine if Gerchsheimer is legally or illegally in the United States and was, in fact, become a naturalized citizen of this country. This information should be furnished the Bureau for the completion of its files under the caption "Carl Gerchsheimer, Information Concerning (Internal Security)," BUFILE 62-3724.

Hey, the comrades around here have a lot of gall. \$15.00 per person for a dinner ticket, for the L.A.C.F.B. No doubt you have several copies of the enclosed flyer on the dinner, but here's another one.

A [] sends the enclosed material and questionnaire. He's disturbed about this matter, because he feels that this is just another ruse on the part of the Soviets to carry on some legal espionage. I gave [] [] your name, and suggested that he contacts you. b6 b7C

Tell your friend, who was with you the morning we met at Ontra's that when I referred to Communist coming out to the West Coast I stated, that there was an influx of Reds out here from the East since the 50's. I pointed out that this is a concentration area for the Reds - and that many of the Reds with whom I worked in the East over the years, have gravitated to California in the past several years. This is true.

Published by Los Angeles Committee for Protection of Foreign Born - 326 W. 3rd Street
Room 318, Los Angeles 13, Calif. MADison 5-2169 - MADison 5-2160

Our annual Testimonial Dinners have become a proud tradition in Los Angeles. Every year at this time we honor our panel of attorneys who, throughout the year, selflessly devote their time and talents to defending the legal rights of foreign born Americans against deportation and loss of citizenship.

This year, the Ninth Annual Testimonial Dinner reflects the renewed dedication and efforts of the attorneys and of the many friends of the Los Angeles Committee. The loss of Abner Green is a cruel blow to the thousands who looked to his pioneer courage and brilliant leadership for guidance in their struggle to win their rights as Americans. For all of us, therefore, the banquet will mean, not only an enjoyable social occasion, but a new and determined rallying point for the work of the Committee.

We are in full agreement with the opinion expressed by both our delegate to the United Nations, Henry Cabot Lodge, Jr., and Spyros Skouros, president of 20th Century Fox Studios, who, in recent speeches, stressed the valuable contributions made to the greatness of the United States by the hundreds of thousands of immigrants throughout the years. To this we add,

that in order for the American dream of peace and prosperity to be realized by ALL immigrants and their children and grandchildren, for full and equal rights and freedom for ALL Americans, such laws as the Walter McCarran Law must be repealed.

The Banquet itself, which year after year attracts a thousand or more guests from trade unions and national groups, native born and foreign born Americans alike, is an occasion of informal conviviality, with fine food, brilliant entertainment, and greetings by nationally known figures from the world of labor and politics.

The guest speaker will be either Louis Goldblatt, Sec.-Treas. of the ILWU, or a leader from the ILWU Hawaiian local. A famous cellist and an outstanding soprano will entertain, with Waldemar Hille at the piano. Attorney John McTernan will be master of ceremonies.

Please call MADison 5-2169 for reservations at \$15 per person or \$7.50 for regularly elected trade union delegates.

The date: October 24, 1959, at 6 p.m.

The place: Park Manor, 607 So. Western

Abner Green Memorial

Abner Green, Executive Secretary of the American Committee for Protection of Foreign Born, died at the age of 46 on September 5, 1959. Himself the son of immigrants, Green's entire adult life was wholeheartedly dedicated to fighting abusive immigration legislation, on which he became an authority frequently consulted by attorneys handling deportation and denaturalization cases.

No other name appears with quite the frequency of that of Abner Green in the recently published "The Torch of Liberty," by Prof. Louise Pettibone Smith. This is no coincidence, for his life work was the Committee for Protection of Foreign Born, and protection of the foreign born was his life.

Thousands of people throughout the country and in many lands, whose lives were directly benefited by Green's unceasing efforts on behalf of the foreign born, mourn this tragic and untimely loss.

Los Angeles Committee for Protection of Foreign Born has arranged a memorial meeting for Tuesday, October 6, at 8 p.m., at Convention Hall of the Embassy Auditorium, 847 So. Grand Ave. The Rev. Stephen H. Fritchman, minister of the First Unitarian Church an officer of both the Los Angeles and American Committees, and a long time personal friend of Mr. Green, will deliver the main address. All who wish to honor Abner Green's memory are urged to attend.

NEWS OF CASES

MIKE DANIELS

There will be a hearing for Mike Daniels October 15th at the De Mar Home in Elsinore. Attorney Seymour Mandel will present evidence that Mike would face physical persecution if deported to Greece.

ALLAN MCNEIL

The former trade union leader and officer of the Lincoln Brigade was ordered deported. His case is being appealed to Washington. Joseph Forer is the attorney.

JOSE GASTELUM

David Rein of Forer & Rein argued this case in the U. S. District Court in Washington last week. After an adverse decision by Judge Holtzoff, an appeal was filed by Mr. Rein.

PHILIP CHERNER

The deportation case of Philip Cherner was returned to local Immigration authorities for the third time for the purpose of reopening under Rowoldt.

A Letter to Freedom Club

From Matt Cvetic

From my personal observations, 1959 and 1960 are going to be vital years in the history of our nation; and the most critical in our lifetime.

Recent events should serve as a harbinger and a forewarning to all that not only are our fortunes at stake, but our liberty and our very lives as well.

Those of us who understand the gravity of the situation realize that we are faced, not with a "political or diplomatic battle of words," but rather with a "battle for survival" against a deceitful, treacherous, and ruthless enemy.

Eighteen years in the fight against Communism, nine of which I spent posing as a Communist for our FBI, have convinced me beyond any doubt that we Americans must make a choice here and now between:

AMERICANISM — with freedom of thought, speech, press and religion as guaranteed by our Constitution OR

COMMUNISM — with its systematic brain-washing, thought-control, mass enslavement and mass murder.

Americanism or Communism? Which way, America? We can thank Almighty God that WE STILL HAVE A CHOICE!

The reason there is such delusion concerning this vital issue is because too many Americans do not seem to realize that, IF WE EVER LOSE OUR FIGHT AGAINST COMMUNISM — WE LOSE FOREVER!

Many of us our very lives; all of us our freedom, which is now guaranteed under our American Constitution.

Being cognizant of the potent danger of Red intrigue and deceit, I am fully aware of the necessity for persistently arousing the American people from their apathy and lethargy in this "crucial battle for survival."

Therefore, I plan to continue speaking across the country, giving my fellow Americans knowledge of the Reds' conspiratorial methods and techniques. Knowledge which was acquired firsthand, while posing as a Communist for the FBI.

I am a firm believer that an informed America will remain an alert, a safe, and a free America.

Pertinent Employment: United States Department of Labor, United States Department of Justice, Federal Bureau of Investigation.

Undercover Activities: In 1941 the FBI requested Cvetic to join the Communist Party for the purpose of securing intelligence information for the United States Government. Cvetic successfully infiltrated the party and in the ensuing nine years attended more than 3,000 meetings with Soviet agents, secret police and American communists. During the nine years he worked as an undercover agent, Cvetic reported regularly to the FBI.

Scope of Activity: After being recruited into the Communist Party, Cvetic was assigned to the party's professional branch. This communist unit was composed of Reds in the scientific, legal, educational, medical, governmental, and social, health and welfare fields. Later he was assigned to the communists' organizational, educational, and financial committees. Cvetic helped to direct most of the Reds' major fronts in the middle and late forties. In 1949 he helped organize the Labor Youth League, the youth arm of the Communist International. Cvetic's nine-year pose brought him in contact with hundreds of Soviet agents and American communists. His knowledge of the Reds' conspiratorial methods and techniques was acquired, thereby first hand.

Personal: Cvetic is one of 12 children. His mother and father came to the United States from Austria in the late 1800's. For security reasons, Matt was not permitted to tell his family or friends of his true FBI role. His mother died in October, 1949, believing her son, Matt, had betrayed her adopted country. His father died on Memorial Day, 1950, three months after Cvetic's real FBI role was made known through his testimony before a congressional committee.

Review: Matt Cvetic authored a series of articles in the Saturday Evening Post titled "I Was a Communist for the FBI." A motion picture, starring Frank Lovejoy as Matt Cvetic, was produced as was a radio series with Dana Andrews playing Cvetic's role. Mr. Cvetic is presently working on a new manuscript, "Escape to Nowhere," which will reveal, for the first time, the complete story behind his 17-year fight against the Red conspirators.

The L.A. area was always considered rather a valuable point of concentration by the Communist Party.

Here is the motion picture industry, a large segment of the tv industry, aviation industry, many technical projects, and coastal military bases.

One of the major reasons for this concentration (and I'm drawing on all my experience) is because the Reds have found the motion picture industry extremely vulnerable on occasions. Another reason is, because the Reds have been able to raise considerable funds here. For example, recently the ACFPB, L.A. Chapter, held an affair and charged \$15.00 a ticket. Were a similar affair held in Pittsburgh (and I doubt if one could be held there now), the Reds would have to sell tickets @2 or 3 dollars.

Then, here the Reds have been able to get many so-called "liberals", do-gooders, and pseudo-intellectuals, to aid their cause. This, I presume, is due to the general apathy in California, which isn't in evidence in Pittsburgh. Perhaps the reason for this is, because there is such a floating population here - and the State seems to be plagued with too many people who think that Communism is some form of intellectual Socialistic movement.

When I attended the House Committee hearings last week, the Komrats seemed to be out in good numbers, and some of them were bold as brass. Again, this they can do, because of the chronic apathy here.

As early as 1943 and 1944, very often when comrades were shipped out of Western Pennsylvania, they were sent to one of two or three places, namely:

New York.....California (especially the L.A.area).....and the Midwest.....and in about that order.

To make some comprehensive report about all the knowledge I ^{take} ~~take~~ acquired over the years, on West Coast concentration, would ~~take~~ pages and pages.

Oh yes, the Comrades had quite a following out here amongst the Croatians. As a matter of fact I recall Croatian Communists from this area coming to Cleveland and Chicago and New York for Party confabs. Usually, they were led by a [redacted] from Mountain View, California. I was a member of the Yugo-Slav Bureau of the C.P., and as I recall, the Croatian concentration here was around San Pedro.

Since I left the Bureau in 1950, I have heard from time to time, that certain former ~~comrades~~ 'comrades' have been transplanted out here.

THE COURAGE TO BE FREE . . .

A statement by teachers in Los Angeles
now under subpoena to appear before
September, 1959, hearings of the
House Committee on Un-American Activities

*"I have sworn on the altar of God
eternal hostility against any form of
tyranny over the mind of man."*

—Thomas Jefferson

MORE THAN ONE HUNDRED TEACHERS in California are now under subpoena to appear as witnesses before the Un-American Activities Committee.

The hearings were first announced for June, but at the last moment Chairman Walter and Committee member Jackson announced through the press that the "red malignancy" was of such "magnitude" as to demand more extensive "investigative work."

It has become clear, during the twenty-one years of the Committee's existence, that it holds not hearings but *trials*, trials wherein the majority of witnesses are dealt with as defendants presumed guilty.

As Supreme Court Justice Hugo Black states in the Barenblatt dissent:

"The chief aim, purpose and practice of the House Un-American Activities Committee, as disclosed by its many reports, is to try witnesses and punish them . . ."

THE COMMITTEE CREATES THE CRIME

THE ACTIVITIES THE COMMITTEE "investigates" are activities of the mind — holding and expressing ideas deemed "un-American" by the Committee members. But by the Committee's statements to the press, we, as witnesses involved in so-called Un-American Activities, are made to appear guilty of the most serious of moral and legal crimes: acts of subversion and disloyalty to our country.

"Within the definition adopted by [this] Committee," an individual's association with organizations deemed undesirable and his "views and philosophies as expressed in various statements and writings *constitute subversive activity* . . ."—Committee Report

THE EPITHET IS THE EVIDENCE

THE COMMITTEE, imposing its own judgment as official, decrees beliefs to be lawful or unlawful. It proves the "crime" by bestowing upon beliefs it opposes the epithet "un-American." To prove the crime widespread it needs only to find widely prevalent the political ideas it opposes. Thus, in trial by headline, to prove "magnitude" the Committee simply points to the large number of persons it considers necessary to serve with subpoenas.

The Committee boasts that it has the names and files of more than *one million* Americans. These are all potential witnesses, and with this "evidence" in its hands, the Committee can at any time produce an epidemic of "red malignancy."

"WHO CAN DEFINE THE MEANING OF
'UN-AMERICAN'?"—Chief Justice Earl Warren,
in the Watkins decision.

Even if beliefs were the proper subject of investigation, how could the charge of "un-American" ideas be answered? Referring to the Committee-created crime, the *New York Times* said: "*The law defines crimes against the state, and persons committing such crimes are admittedly un-American. But is it un-American to hold an unpopular opinion . . . ?*"

THE CRIME OF EVIL BELIEFS

ACTUALLY, WE ARE CHARGED WITH and convicted of *heresy*, the heinous crime of "evil beliefs," the black crime of medieval times.

The California State Investigating Committee on Education enlarged the indictment for heresy by revealing *its* findings. It charged "red" teachers can "cripple" the pupil's "mind and morals worse than polio diseases"; and that "the most permanent harm" is done by such teachers "in the elementary school system."

A DARK AGE OF FEAR

This medieval superstition-mongering could perhaps be amusing if its method of punishment — fear — were not so tragically devastating to our country's life and welfare. As Justice William O. Douglas stated in 1952, *"This fear has stereotyped our thinking, narrowed the range of free public discussion, and driven many thoughtful people to despair."*

THESE MEDIEVAL inquisitions have left a trail "strewn with blasted lives and wreckage of youthful careers." These words are from the message left by William K. Sherwood, 41-year old Stanford University research scientist who, in 1957, took his own life as the consequence of the harassments of the Un-American Activities Committee.

The subpoenaing of a teacher not only threatens his individual good name, means of livelihood and career, but even beyond this, *"by intimidating thousands of others and causing them to be satisfied with 'safe' subjects and 'safe' opinions, it also prevents the entire profession from effectively performing*

its function." (from the *Bulletin*; American Association of University Professors, Winter, 1955.)

WHO ARE WE? WHY HAVE WE BEEN ACCUSED?

OUR RECORDS AS TEACHERS (many covering ten to twenty years in the classroom.) have in no way been questioned or challenged.

OUR "crime" is that as citizens each of us has felt obligated in mind and conscience to oppose — in his individual ways, by letter or petition, by assemblage or affiliation — the political ideas and unconstitutional methods which the House Un-American Activities Committee represents and practices.

Before the advent of the investigating committee, differences of opinion were accepted as normal. Now they are inferred by these committees to stem from the basest motives.

THE FIRST AMENDMENT
to the
Constitution of the United States

CONGRESS SHALL MAKE NO LAW respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peacefully to assemble, and to petition the Government for a redress of grievances.

If, during the Committee's hearings, the witness will be "friendly" and answer all questions, he may purge himself of "disloyal" beliefs and be absolved of guilt; but by doing this

he cannot avoid granting to the Committee *the right to ask such questions.*

However, if he feels the responsibility to enforce the First Amendment — the protection against such encroachment by elected officials — he must then refuse to be so questioned.

“The Bill of Rights . . . is an instrument. It must be wielded and cared for by each generation.”—James Madison

“Refusal to testify must be based on the assertion that it is shameful for a blameless citizen to submit to such an inquisition and that this kind of inquisition violates the spirit of the Constitution . . . If enough people are ready to take this grave step they will be successful. If not, then the intellectuals of this country deserve nothing better than the slavery which is intended for them.”

—Albert Einstein

WE OPPOSE the Un-American Activities Committee because we believe that, as Supreme Court Justice Black has stated so eloquently, *“the only Constitutional way our government can preserve itself is to leave to its people the fullest possible freedom to praise, criticise or discuss, as they see fit, all governmental policies.”*

AND WE AGREE with Justice Black's summation in the Barenblatt dissent, that the real issue is *“whether we as a people . . . in accordance with our traditions and our Constitution, will have*

“THE CONFIDENCE AND COURAGE TO BE FREE”

THE WISDOM AND STRENGTH of Supreme Court justices, important as they are, will not end the medieval practices of the House Un-American Activities Committee. This political body and the forces it represents have already demonstrated their determination to circumvent the highest authority of the Judiciary. The statement of Senator James Eastland, Mississippi (Chairman of the Senate Judiciary Committee), has made this clear. Says Senator Eastland: *"The time has come when the Supreme Court must be curbed and bridled. It is today the greatest single menace to domestic security and tranquility of this country."*

WE BELIEVE THE CONTRARY: it is the Un-American Committee and its unprincipled practices which should be constrained.

THE DECISION WILL BE MADE by those who elect the Congress, in whose name and authority this House Committee usurps the power which belongs to the people.

IF EACH OF US will let his convictions be known to the Congress, we can remove this blight, this "black silence of fear," from our lives, our minds, and our honor.

"Must the children of our country leave their idealism in the cradle so that their future careers will not be blighted by the Un-American Activities Committee?"

—Mrs. William K. Sherwood,
widow of William K. Sherwood,
Stanford University scientist

To the editor

Dear Sir:

In relation to the hearings of the House Un-American Activities Committee for which some 110 California teachers have been subpoenaed - hearings twice postponed and now scheduled for October 14 in San Francisco and October 19 in Los Angeles - we believe the enclosed synopsis of public reactions to the calling of these hearings will be of help to you in evaluating news releases pertinent to these or any future hearings scheduled by the Committee.

Also, because there are indications that the California hearings will be of national interest, we hope you will study our statement (enclosed) with a view to preparing your own editorial comments.

Sincerely,

EDITORIAL From The
SAN FRANCISCO CHRONICLE
August 14, 1959

METHODS THAT OUTRAGE
THE PUBLIC CONSCIENCE

The laity and clergy of the California Episcopal Diocese, speaking through its Department of Social Relations, have added their strong and impressive voice to the growing chorus of protest against the House Un-American Activities Committee's investigation into purported Communist acts, associations and inclinations of California schoolteachers.

In a resolution of protest supported by Bishop Pike, these churchmen noted that the committee's methods have gravely threatened the welfare of innocent persons to a degree that "the public conscience is and must thereby be outraged."

Previously, the objectives and methods of this stop-and-go investigation have been denounced by the San Francisco Labor Council, the California Democratic Council, the American Civil Liberties Union, San Franciscans for Academic Freedom and Education, and various other groups. Its legal authority has been brought under question and the committee's right to investigate California schools has been challenged. It has also been noted that no legislative purpose whatever is to be served by such an inquiry. As for methods--the committee has made public the names of some 110 teachers under subpoena, thus stigmatizing them in a manner that lays them open to public suspicion and even to loss of jobs through the action of hysterical school boards.

The uncertain, legally dubious and legislatively useless investigation should in all conscience be abandoned. If the appetite of Chairman Walters and his fellow committeemen for headlines is too strong for such a sensible course, then the committee's procedures ought to be modified to accord with the American principle of "innocent until proved guilty" and with the dictates of simple fair play.

Unhappily, the history of this committee justifies little optimism on this score; it suggests rather that as the teachers' investigation gets under way, it may be accompanied by broad, general and vague but sinister-sounding intimations that the committee may sidetrack it to look into the acts, associations and inclinations of the Episcopal Diocese of California.

Dragnet for Teachers

The House Un-American Activities Committee has summoned 110 California school teachers to appear before it in what amounts to a vast dragnet operation. Obviously the purpose is not to assemble information preparatory to drafting new laws. The purpose is clearly to expose for exposure's sake. It is to embarrass those summoned, indeed to give them a kind of rough justice trial in the guise of conducting a congressional inquiry.

But this time the House Un-American Activities Committee may have overreached itself. Miss Florence M. Sloat, arts and crafts teacher in the Los Angeles school system for a decade, has brought suit in federal court to prevent the committee from releasing the names of 70 teachers summoned from Southern California for Sept. 15. Says this courageous teacher:

Because I have already been humiliated by this committee, I want to spare other teachers and their families the same distress. These teachers are being punished solely for their off-campus ideas and associations. I hope our suit protects them from the humiliation and scorn which results from abuse by this committee.

In its recent Barenblatt decision the Supreme Court weakened its 1957 Watkins decision concerning congressional fishing expeditions, but it did expressly denounce "pillorying of witnesses." What else would a roundup of 110 teachers in California be but exposure and intimidation to the point of pillorying?

The following information comes from a confidential source.

On January 23rd. 1960*P.M. a [redacted] of Los Angeles appeared at TV Station KCOP for the purpose of filming a TV show on the Pappy Boyington TV series.

b6
b7C

According to my informant, said [redacted] insisted that one of the questions which were asked should deal with the recent so-called Nazi resurgence in the world.

What makes the matter interesting is, that a [redacted] is listed on many of the leading Communist Front organizations of the 40s and early 50s. Of course, I have no way of checking if said [redacted] is one and the same.

b6
b7C

However, from information at hand, it is apparent that the current C.P. Party line throughout the world, is to stir up this so-called resurgence of Naziism into a full-blown pro-Communist propaganda deal, principally to effect the coming Summit conference.

Sincerely,

Matt Cvetic

YOUR LETTERS MAKE THE SUN SHINE

POSITIVE VIEWS EXPRESSED

Many people have made comments to us regarding Tom and Bennie Hudson. Some have naturally called them an ornery old Texan. Some have said that Tom and Bennie are one-sided and one has said that any time there is trouble, the Hudsons yell. Nevertheless an overwhelming majority of the people that we have met since we came to the valley have expressed regret that the Hudsons are leaving the Sun. The following letter is typical of the many received.—(Editor.)

Dear Tom and Bennie: I am sure that you are leaving the Sun with a feeling of great satisfaction, because I personally know that the achievements which have resulted from your personal efforts in the Lake project, Municipal Water District, and a host of other accomplishments are due largely to your efforts. It was Bennie who first started the State Lake project back in 1946 and has stayed with it these many years.

Will never be printed for Senator Dilworth. As long as he lives, in the Senate or out, his services and advice will be in demand. And when the final call to duty comes, Senator Dilworth's accomplishments, his fearlessness and his Americanism will remain with us to be projected far into the beyond the grave.

There were several times to my knowledge when the Chamber of Commerce would have folded up except for the encouragement and enthusiasm injected by Tom.

The Lake Elsinore Park and Parkway district would have long since been disbanded, with disastrous results, were it not for your published clarification of issues and your sympathetic understanding of the problems that have arisen from time to time among the Directors of the District. I hope that, in some way, you can pass on this progressive spirit to the new owners of the Sun. — ALFRED A. GREGORY.

WELCOME

Dear Messrs. James and Jerry Gilbertson: We live in a world of constant change and progress and it is fitting that young strong hands should carry on when their elders are ready for a well earned rest. Our hearts go with them and wish them well just as we welcome all of you in the same spirit.

We wish you all success and we know that you will be a very great influence in the community. — LEO BURNSTEIN

The Big Decision

BY MATT CYETIC

From my personal observations, 1960 is going to be a vital year in the history of our nation; and the most critical in our lifetime.

Recent events should serve as a harbinger and a forewarning to all, that not only are our fortunes at stake, but our liberty and our very lives as well.

Those of us who understand the gravity of the situation realize that we are faced, not with a "political or diplomatic battle of words," but rather with a "battle for survival" against a deceitful, treacherous, and ruthless enemy.

Eighteen years in the fight against communism, nine of which I spent posing as a Communist for our FBI, have convinced me beyond any doubt that we Americans must make a choice here and now between:

AMERICANISM — with freedom of thought, speech, press and religion as guaranteed by our Constitution

or

COMMUNISM — with its systematic brain-washing, thought control, mass enslavement and mass murder.

Americanism or Communism? Which way America? We can thank Almighty God that **we still have a choice!**

The reason there is such delusion concerning this vital issue is because too many Americans do not seem to realize that **if we ever lose our fight against communism—we lose forever!**

Many of us our very lives; all of us our freedom, which is now guaranteed under our American Constitution.

Being cognizant of the potent danger of Red intrigue and deceit, I am fully aware of the necessity for persistently arousing the American people from their apathy and lethargy in this "crucial battle for survival."

Therefore, I plan to continue speaking across the country, giving my fellow Americans knowledge of the Reds' conspiratorial methods and techniques. Knowledge which was acquired first-hand, while posing as a Communist for the FBI.

I am a firm believer that an informed America will remain an alert, a safe, and a free America.

ELLSINORE VALLEY
Americanism or Communism? is the question asked by Matt Cvetic in his article in the adjacent column and it will be the question on which he will expand in his talk Wednesday night, February 10, at 8 p.m. in the Lake Theatre.

The issues in question are not only important to adults but also to the children, therefore Matt Cvetic will speak before an assembly in Ellsinore high school at 2:30 p.m. Wednesday on the same date as the evening program. Both meetings are sponsored by Ellsinore Valley Incorporated as their contribution to Brotherhood week.

Arthur M. Gediman will give an introductory address on brotherhood.

ELLSINORE VALLEY INCORPORATED states prominently in its by-laws that it is devoted to the welfare of Ellsinore Valley. The organization is presently going through the mechanics of legal incorporation. "It is being organized in response to the increasing evidence of nation-wide subversive groups and activities," said C. R. Gough, temporary chairman. Mr. Gough will act as master of ceremonies at the Cvetic program.

MOST OF US know of Matt Cvetic's work through the Saturday Evening Post series titled "I Was a Communist for the FBI," or through the radio and television program series, all of which recounted the personal sacrifices he made for American ideals. Now Ellsinore Valley has the opportunity to personally see and hear him tell his amazing and authentic account of the subversive plans and techniques that the Communist conspiracy is using, on the local as well as the national or international level, to attain their goal of world-wide domination.

In 1941 the FBI requested Cvetic to join the Communist Party for the purpose of securing intelligence information for the United States government. Cvetic successfully infiltrated the party and in the ensuing nine years attended more than 3000 meetings with Soviet agents, secret police and American communists. During the nine years he worked as an undercover agent, Cvetic reported regularly to the FBI.

After being recruited into the Communist Party, Cvetic was assigned to the party's professional branch. This communist unit was composed of Reds in the scientific, legal, educational, medical, governmental, and social health and welfare fields. Later he was assigned to the communists' organizational, educational and financial committees. Cvetic helped to direct most of the Reds' major fronts in the middle forties.

• Turn to Page 16

• From Page 1

In 1949 he helped organize the Labor Youth League, the youth arm of the Communist International.

Cvetic's nine-year pose brought him in contact with hundreds of Soviet agents and American communists. His knowledge of the Reds' conspiratorial methods and techniques was acquired, thereby first hand.

FOR SECURITY reasons Matt Cvetic was not permitted to tell his family or friends of his true FBI role. His mother died in October, 1949, believing her son, Matt, had betrayed her adopted country. His father died on Memorial Day, 1950, three months after Cvetic's real FBI role was made known through his testimony before a Congressional committee. Ever since that time he has devoted himself to the task of informing American citizens about the dangers inherent in international Communism.

CVETIC cited his own experience in the CP as the basis of his knowledge that communists can control media such as the motion picture industry if allowed to infiltrate.

VIEWS in the VALLEY News

By CHARLES PAGE

We've always had spirited disputes in zoning matters out here, but the opposition being developed in Chatsworth over a proposed commercial zone at Devonshire st. and Mason ave. is one of the greatest.

The chamber of commerce and numerous residents feel there already is enough commercial zoning to serve the area for several years to come and they claim they do not want Devonshire blvd. turned into another strip of business development such as has grown up along Ventura blvd.

When the matter comes up before the City Council's planning committee in the near future, the councilmen probably will have more petitions with more signatures about the proposed zoning than they've received in a long time. At least, that's what the opposition says.

Ex-FBI Red Counterspy Hits Schary Stand

Matt Cvetic, FBI anti-Communist counterspy from 1941 to 1950, Thursday criticized Dore Schary, motion picture producer, for declaring producers should have the right to hire whom they like.

Schary's reference was to the recent rehiring of two Hollywood film writers who had refused to testify as to Communist affiliations. Cvetic spoke to the Exchange Club of Statler Center at the Statler Hilton.

The 178,000,000 people of this nation also have rights which should be respected by the producers who invite them to their motion pictures, Cvetic said.

SOUTHERN CALIFORNIA DISTRICT,
COMMUNIST PARTY
IS-C

During a contact with [redacted] of HQUA'S investigative staff this date, I asked him for such info as he might have regarding a loose knit organization which claims to be fighting Communism which has sprung up in the LA area in recent weeks. There have been vague allegations that some such group meets irregularly to hear experts on Communism and Communist issues of the moment.

b6
b7C

[redacted] told me the following.

b6
b7C

A comparatively short time ago, possibly two or three months, a group was formed here at Los Angeles on the suggestions of a few interested people that some sort of information should be put out to those who desire to fight Communism but don't know enough about it to put their efforts to good use. The new group is a loose knit affair and does not have a name. However it does have a so-called Steering Committee made up of MIAT CVETIC, the former FBI informant; [redacted] one-time informant in the EE CP at LA for the LA FBI office; and [redacted] of the American Legion at LA.

b6
b7C

The group has held only a few meetings so far, the last one being on Wednesday a week ago (4-13-60). They are generally held in one of the rooms at Patriotic Hall, 1816 So. Figueroa. (This is the Los Angeles County Council Hqts of the American Legion.).

The idea is that whenever a Communist issue of interest arises, the Steering Committee put out notices to the various organizations to send a representative to the next meeting at which time someone familiar with the particular issue will speak. The subject matter is always restricted to the security field. The delegates or representatives are from organizations and civic groups of all kinds, such as Womens groups, civic groups, Knight of Columbus, etc. and any organization which is anti-CP and desires information as to what they can do about it.

After the meeting, the representatives go back to their respective organizations and urge the members to write letters to their public officials. For instance, at the last meeting on 4-13-60, film actor [redacted] spoke on the current Hollywood issue of Reds getting back into the film industry. There were about 50 representatives present at this meeting and they went back to urge their people to write to Senator EASTLAND to bring his Committee out here to inquire into the matter. 100-53044-85

Golf Tourney Tee Off Planned For 15 May

Sunday, 15 May, has been established as the date for the fifth STL Golf Tournament at the Balboa Golf Course in Encino, Steve Kapernaros, Tournament vice president, announced last week. Arrangements for 15 foursomes have been completed with "tee-off" at 12:30 p.m.

Representatives of the golf course have asked that interested golfers sign-up and pay the \$3.50 fee to George Chambers, 44A Bldg. 6, no later than Wednesday, 11 May. Failure to pay by that date will cancel the players' or foursome's reservation. Chambers' extension is AV 1656.

Two Three-Day Holiday Weekends Set For STL

Two three-day weekends are in the offing for STLites. Memorial Day, 30 May, and the Fourth of July both fall on Mondays this year.

In accordance with Company policy, James E. Dunlap, Director of Industrial Relations, announces that STL offices will be closed on both these days.

Security Poster Campaign Introduced By Air Force

Effective early in May, the Air Force Ballistic Missile Headquarters in cooperation with the AMC Ballistic Missile Center will introduce its own Security Poster program, with responsibility for some 54 posters appearing in those areas of the Arbor Vitae Complex which are predominantly military. STL will continue to maintain its posters on boards in STL areas.

The new Air Force program has been proposed as an added safeguard against security violations in the military areas of the Complex. Theme of the campaign, to last approximately one year, is based on the concept that Soviet intelligence has the capability to spot vulnerable points with intent to capitalize at an advantageous time.

Posters for the new program have been designed by T/Sgt. Dan Murphy, assistant Security Officer for the AFBMC.

STLEA COMING EVENTS

● HI FI

"Stereo on Trial" is the theme for Thursday's meeting of the STLEA Hi Fi Club, and sound demonstrations with audience participation are planned. As an added attraction, a low-cost circuit for converting monaural sets to stereo will be demonstrated, according to Club President Dave Bradburn. Admission is free to the program which begins at 8:30 p.m., Bldg. 2 Auditorium.

● BOWLING

Bowlers who would be interested in attending a proposed Bowling Banquet are asked to secure questionnaire forms from Renee Bergeson, AV Ext. 1265, or John Gordon, R&D Ext. 3136. Price of dinner, cuisine, time and day will be established after all questionnaires are returned.

● CAMERA

How to organize slide-sound programs will be a featured topic at Wednesday's noon-brown-bag meeting of the Camera Club, 1438 Bldg. F. Club member Marcella Paulson presents "A Visit to the Mile-High City."

FBI's Matt Cvetic Will Present Two BMC Lectures Thursday At AV

Matt Cvetic, former FBI agent who exposed Red spy-master Gerhard Eisler and spent nine years as an American counteragent within the Communist Party, will make two talks to personnel of the Ballistic Missiles Center on Thursday in Bldg. 11 Cafeteria, the first at 2:30 and the second at 3:45 p.m.

Cvetic is the author of "The Big Decision," a book describing experiences in counter-intelligence work. During World War II, he was recruited by the Communists and was responsible for placing them in high positions in the U.S. government. He will also back-ground Communists in places of influence within Hollywood, churches and respectable community activities.

His appearance at the Complex is being sponsored by the BMC Security Office, AV Ext. 1620.

Auto Club Reps Offer

Nautical Information, Helps

Attention boat owners! The Auto Club representatives at STL now have available current information on boat docking sites, dock charges, launching sites and even suggested trips for one day or one month.

Reference books containing similar nautical information have been donated to Personnel Services at both Complexes through the courtesy of the Automobile Club of Southern California.

T.I.C. Closed For Inventory

All areas of the Technical Information Center will be closed Thursday, Friday, Saturday, April 28 through 30, to facilitate an inventory of all library holdings.

It is requested that books, periodicals, technical reports, etc., which will be required during this closed period, be obtained early in the week. Library material may, however, be returned as usual.

'SECRETARIES WEEK' OBSERVED

A proclamation declaring 24-30 April as "National Secretaries Week" has been signed by the Secretary of Commerce, with the theme: "Better Secretaries Mean Better Business."

How long has it been since you brought your secretary a bouquet, or greeted her with a smile in the morning? There's no better time for small remembrances than during *this week!*

You may recall that last November (1959) I mailed you a letter, mentioning
an informant in Yankton, South Dakota, who said that John Kasper, the so-
called "White Supremacist" was a member of the Communist Party in South
Dakota several years ago.

Hope you had a chance to read my BigDecision, and trust you enjoyed it.

JOHN KASPER FINE AND COSTS

March 18, 1960

Dear

b6
b7C

This sound came in the dark, first must thou go the road
to hell --

As this is written I am in shackles and beginning the last phase of the first part of a continuing struggle for more light. The place is the Davidson County Workhouse at Nashville, Tennessee.

There are so many things I would like to write you about; of matters that are now history, of unbelievable illegality and railroading to jail by Federal and State Courts in Tennessee by methods heretofore thought buried in the barbarous past. Especially, I would like to engage your serious attention to specific remedies for specific diseases and how we can and must restore constitutional government to White America - or at least a method of restoration that I think is soundly drawn from my own conflict with the powers of darkness and confusion.

But John Kasper has been long on action and short on time, moreso now than ever before.

The situation is this:

In 1956, '57, '58, I was railroaded to jail for exercising freedom of speech and organizing against the compulsory mixing of the races in Clinton and Nashville, Tennessee. I have also engaged in similar efforts to maintain white-race integrity and Constitutional government all over the Southern part of the United States and from Chicago to Mobile; from New York to Miami.

Twice I have gone to jail (Federal prison) for a total period of 18 months FOR NOTHING. Only the fact that I was successful in mustering resistance to integration wherever I was allowed the right to free speech and assembly has jailed me three times. The resistance was so sound, so natural, and so correct from any moral or legal standpoint that it was as logical as night following day that some vicious, hateful expression of revenge would be levied against any known leadership. The Federal District Courts and U.S. Supreme Court were incensed with rage because their illegal decrees were legally confounded by the white citizenry.

The N.A.A.C.P. and its jewish manipulators were venomous as a pit of rattlesnakes in their hebraic desire to see the opposition crushed. Corrupt politicians who have gained power through the cheapest possible demagoguery of promising a rapist, venereal disease-ridden race, that they will soon govern State governments as well as the Washington welfare state and that the day is not far distant when white folks will approach Negroes with hat in hand and ask for jobs, housing and educational opportunity - these pimps of usury, international finance, World Bank and bunk, U.N., Federal Reserve, irresponsible power, metro government, flouridation of water, devitalization of bread, Urban Renewal (attack on the homestead) collectivization of agriculture and God knows

what other rot of the rooseveltian revolution, these political betrayers sitting in the national jawhouse in Washington have cast their lot with infamy and dishonor and would rather see America governed by aliens, jews, and black savagery than any decent impulse tied to the vision of the Founding Fathers.

So that -- I am in the workhouse here in Nashville - for at least six months at behest of a few of the sorriest politicians living. The Tennessee evil centers around former Governor Frank Clement, race-mixing Mayor Ben West of Nashville, the two left-wing Senators, Gore, Kefauver, Judge Homer Weimar of Nashville, the seemingly mad Federal Judge Taylor of Knoxville, and Federal Judge Miller of Nashville.

Whether I will be here longer than six months is entirely up to my friends.

Through appeal and court action I have helped make a record of the illegality of our courts and government. Perhaps you have helped me do that with your sacrifices, your contributions, and your loyal support of the many legal appeals I have made.

A day comes when I will be able to personally thank you for all of the godly help you have sent me. There will again be opportunity for correspondence and a person to person meeting.

Now though, there are no more legal appeals possible.

And the only recourse is for the Tennessee Governor, Buford Ellington to cut the sentence to time served. There is little likelihood of that, as he permits the continued existence of the communist Highlander Folk School, and has approved by inaction the integration of Clinton, Nashville, and Smyrna, Tennessee, as well as his recent refusal to defend certain West Tennessee voting registrars who are being persecuted by the Attorney-General of the United States for protecting white voter's rights.

I must raise at once \$1431.00 in cash to pay a fine of \$500.00 and \$931.00 in court costs. If this is not done, I must remain here at hard labor on this chain-gang (predominately niggers) and work out the amount at the rate of \$2.00 per day. Brief reflection will show you that at that rate I could be here for 715 days beyond the six months I must serve in any case, and that is two full years less two weeks.

In the many efforts made to restore responsible Constitutional government in America people wonder if their time or contributions are of my real use. In the present instance there can be no doubt about it, for every \$2.00 received is a day less I will have to crack rocks and it will be a day sooner that I can actively return to the firing line, and in God's name, get out of here.

There are some who are receiving this appeal for funds who have contributed toward the legal appeal to the U.S. Supreme Court I made in the second Federal case, and there is a real possibility that I did not acknowledge your help or send you some expression of my gratitude.

If that is true for you, I can only offer by way of explanation that my petition for appeal to the Supreme Court was never heard and I was jailed shortly after the appeal for funds was sent out. I will answer every letter eventually, I promise that. For now I can only say "Thank you", profound thanks for your

help and I pray that one day I can show you a small token of my deep appreciation. Every bit of help I have had has gone toward necessary costs of trial and appeal. I have been blessed with the services of a great constitutional lawyer, J. Benjamin Simmons of Washington, D.C. who has continued the legal struggle without payment for his services, and Raulston Schoolfield of Chattanooga and associates who defended me heroically in the absurd trial that now sends me to the workhouse.

This is only the second time in more than four years that I have asked for help. I am not a professional money-raiser nor have I ever used tactics to shock people into giving help. Everything has been based on absolute need, and my end of the struggle for Constitutional government and white-race integrity has been supported by mostly 'poor' folks, plain, everyday citizens whose common sense has cut through the deception of 'controlled newspapers' and other communication media. For my part, the struggle has been made on a mouthful of air, a shoestring, and continuous effort no matter what the circumstances or how criminal the opposition.

In the first appeal for funds written early last summer there appears the following:

"We are struggling for civilization in America. We are working for a nation which will present equal or greater opportunities to America's sons and daughters than the past has afforded them. We aim at the most intelligent white leadership in our various governments, Federal, State and local. We stand for the Constitution of the United States as ratified in 1789, every word of it, as the greatest instrument of government ever devised by free men.

"Against this is barbarism. Against this is the return to savage, jungle life embodied in the murderous ideals of the Bolshevik and the Jews who conceived such a monstrous concept of life. Against this is usury and the international financiers; Federal Reserve racketeers, mostly controlled by the Jews of New York, Washington, London, Paris, Geneva, and Moscow.

"Against this is the present Supreme Court of the United States comprised of communist sympathizers, Jews, white-race haters, and radicals of the Rooseveltian revolution which changed our government from a Constitutional Republic to a centralized welfare state with Jew-control at the top."

I can't improve that writing at this time and don't see anything to add or take away. It is what I stand for, and what I oppose, anything different or else to the contrary notwithstanding.

Going to a chain-gang for 'inciting to riot' when no riot ever occurred is difficult, but it is not nearly as difficult as life in America will be for all of us if we don't all pull an oar together and beat back the evil while we still are shadows of free men and women.

One can't get through hell in a hurry and it seems that one must first go that road before coming to more light. It takes continuous energy, relentless determination, every sort of hard work and the courage of a thousand tigers.

As we have seen, there will be great persecution of the innocent to make small but significant gains over the foul host of grasping, perverse men who drive the nation to wrack-ruin. Renewal has occurred before in our history in a dark hour and it will again if we all keep on keeping on.

It is urgent that you sacrifice your all now as never before - my very freedom depends upon it - the bars and filth and stench of this cage is the living testimony of it, and for God's love please get your friends to help as soon as possible. All checks or money orders should be made out John Kasper, at P.O.Box 8771, Nashville 11, Tennessee.

If you are unable to send any money perhaps you could reprint this appeal or write me for more copies to send to your friends - even stamps will be a great help.

There have been issues and times when it would have been the safe personal course to avoid a fight and thus I could have avoided the malice of political criminals. I have absolutely no regrets about the course of affairs as they have involved me, and I would do all again in the same way to accomplish the same result which is exposure of the communist-jewish-international finance conspiracy against white America, oust corrupt public officials and elect men of character and integrity to every public office, and above all restore constitutional government to the American people.

Admiral John G. Crommelin, one of the greatest living Americans should be the draft candidate of all patriots for President of the United States on an independent ticket in 1960. However, I have learned that the Admiral will run for either the Senate or House of Representatives in the 1960 election on the Democratic ticket - at least it is my sincerest wish that he will do so. We must get Admiral Crommelin into the national government. He is the one man who would never falter, flinch, or compromise on issue, especially on the Jewish question or the integration question or the money question or any matter concerning the public welfare.

Support the Admiral if he runs for the House or Senate. There is no patriotic activity more worthwhile for any American at this time.

I pray that God will guide and protect you wherever you are.

Yours for white-race integrity and the Constitution.

John Kasper

P.S. I would be glad to have word from you at the workhouse. Financial help should be sent to P. O. Box 8771, Nashville 11, Tennessee.

Dear Sir:

I should like to submit for your consideration and with a view to publication in the Times the article enclosed, "Fears for a Japanese Journey."

The article contains reflections and opinions aroused by the current riots in Japan. Perhaps a few words about myself will explain why I have written it. During the war the army sent me to study Japanese, then to Japan as an interpreter. Later I was an officer in military government. Since then I have written on various aspects of Japan, especially its literature; the translation into Japanese of a book of mine has brought me an invitation to teach for a year in Japan, and this is the starting-point of my article. I am Assistant Professor of English at U. C. L. A.

Should you find the article unsuitable, I should appreciate your returning the manuscript in the envelope enclosed.

Yours very truly,

FEARS FOR A JAPANESE JOURNEY

Late this August I take my wife and young son to Japan where, for a year, I shall teach at Kyoto University. I have not been there since the occupation days of 1946-47, and obviously many things have changed. Friends worry about my safety, needlessly I think, but their concern prompts me to give my opinions about the recent riots and their implications.

We need first of all to be clear about what has happened in Japan. Thousands of Japanese, primarily students and other young people, have swarmed the streets of Tokyo. No Americans have been physically attacked, although [redacted] scrape was very close. The police, members of the government, government property, (parliament buildings in particular) have been targets. One may say that the mobs rioted around official Americans and at the treaty, but that they attacked [redacted] the Parliament, and the police. The distinction is important, because it makes clear the extent to which Communists were able to infiltrate the disturbances. No one doubts that the Communists, supported, participated in, and abetted the riots. But if they had gained direction of the violence, we Americans would have become the prime target of the students as of Peiping Radio.

b6
b7C

The surliness toward President Eisenhower's proposed

visit does not refute such an interpretation. The Communists would have been pleased to attack him in his person no doubt, but the native forces had as targets the Japanese government and the security treaty. As chief executive of one of the signatory powers, the president became an official target, while private American citizens in Japan have been treated in normal fashion.

Tokyo was the scene, then, the treaty and the government the objects of attack. The riots were not Communist inspired but abetted--they poured fuel on an already raging fire that they were powerless to start. With this much clear, three related questions may be asked. What motivated the riots? What has our country done, if anything, to contribute to the frenzy? What can we do in the future?

The riots were motivated by frustration and fear of war. Young Japanese find themselves cut off from normal political participation by their elders, many of whom are hold-overs from pre-war and wartime days. The young feel impotent in the face of a discredited but powerful Old Guard. They are denied a decent economic future. They find colleges and universities open on a highly competitive merit basis, but they also find after graduation that merit is less important than influence in gaining employment.

The frustration is closely allied to fear of war. A Japanese acquaintance of mine writes: "You know there are two views concerning the new security treaty. The businessmen

and the Liberal-Democratic Party want to retain close control with the U. S. by the new treaty, while labor unions, the Socialist Party, and a good part of the intellectuals (university professors and journalists) desire neutrality. We remember that the Anti-Communism Treaty of Japan, Germany, and Italy led us into the last war. We are afraid the same kind of thing will happen again. Besides, we are situated too close to China and Soviet Russia." His historical data may be questioned, the fear of war not.

Our part in the affair is richly ironic. We defeated Japan and sought to insure that she would remain peaceful. We dictated her constitution with clauses forbidding armed forces. Now we want her completely on our side, at least partially armed and willing to let us be armed on her grounds. We insisted upon plowshares and pruning-hooks and now want swords and spears.

The only term for the spirit of the riots is militant neutralism. This neutralism is unlike the leftist demonstrations of some years ago in that it is, as yet at least, lacking in real anti-Americanism. Defeat in war, internal politics, and the proximity of the two Communist juggernauts appear to be the main causes. But we must also not forget that Japan is the only country to have been atom-bombed. No one who has not seen Hiroshima in ruins can begin to calculate the purely psychological meaning of such destruction. The wonder is that we Americans have not been under attack: we are fortunate in the evil of our enemies.

It appears to me that there is little direct action that we can take in this specific crisis. Japanese history is dotted with ~~xxxxxx~~ sudden anarchic upsurges like this. Any interference will only bring wrath upon us. We can only hope that orderly democratic processes in Japan have not been permanenetly questioned. In this connection, the rowdy shenanigans of both parties in the Parliament and the attacks upon the legislative buidlings are especially discouraging.

However, we must examine our Asian policies, which, unlike our ideals and intentions, are now nearly bankrupt. China is in the hands of a powerful dictatorship and will be for decades. Formosa harbors a regime hated by Formosans and hanging on from day to day only by virtue of our armed might. [#] Okinawans would rather rejoin Japan than keep us, which is saying a good deal. Korea is in revolution with the issue undecided: ^{but} for once luck seems to have smiled on us, no thanks to our support of Rhee. Throughout Asia we seem little more than the better alternative to Communism.

I cannot understand how our government got us into the debacle in Tokyo. For no mistake about it, we have suffered throughout the world. The unthinking but good intentions of our officials has paved the road toward disaster. If we persist in calling setbacks such as this successes, we shall be the only nation in history to be destroyed by a surfeit of triumph. We obviously must take a more realistic view of ourselves and especially of foreign attitudes toward us. We need not accept foreign views, but we must know them.

Second, we must recognize the facts of life. We must admit that Red China exists and technically recognize her as we have European totalitarian regimes. Recognition will bring incalculable nastiness--the intransigent Russians are positively reasonable by comparison. But the nastiness exists already and there is no point in seeking international agreements which fail to include the third most powerful nation on earth. We are obviously stuck with Nationalist China, and that too is a nasty business. If they ~~are to~~ seek to recapture the mainland--as they said to President Eisenhower's face--by the time their ships get halfway to shore Formosans will have revolted and their ships ^{will} be sunk. And we ~~would~~ ^{shall} have Russian rockets whistling towards us.

Third, we must show in acts Asia understands rather in words they mistrust that: we are true advocates of peace with justice and that freedom is a necessity for man, not an ill-afforded luxury. Asia is not convinced of either truth--or that we shall win the world struggle. We must somehow keep strong ourselves without war-mongering. We must support nations, not discredited regimes, in Asia and with economic rather than largely military aid. India is now competing with Communist China to see whether a free poor society can achieve a living economic structure more readily than an enslaved poor society. We had better not let tyranny seem more efficient; and we had better seek to alleviate the frustrations and allay the fears of Japanese youth.

I do not fear for my life among Japanese students. My

apprehension grows rather over questions about my government's ineptitude and over my own ability to convey forcefully the reality of our desire for peace. The wisdom of our Asian policy and the plight of our Negro citizens, north and south, trouble me more as I begin packing than student demonstrations.

MATT CVETIC, former Bureau informant, came in personally this date, and in absence of SA M.L. PARKER whom he wanted to see, I interviewed him briefly.

Actually what he wanted was to turn over to us two pieces of correspondence received by his friend [redacted] of the Los Angeles "Times". One of these is a letter to the "Times" from STANLEY FREDERICK GEORGE, Minister of 1st Presbyterian Church, Canoga Park, California, which takes the "Times" to task for its recent editorial relative to the riots in Japan. The writer charged the "Times" editorial writer with war-mongering and irresponsible reactionaryism.

The letter in question, which CVETIC said could be discarded and was for info only, is attached hereto.

A second letter to the "Times" was from [redacted] an Ass't Professor of English at UCLA. He submitted a 6-pg manuscript on the subject of "Fars For a Japanese Journey". The article purports to set out opinions and reflections aroused by the recent riots in Japan. The author appears to question the wisdom of American policy toward Asia; and one of his suggestions is that the U.S. should recognize Red China as one of the facts of life. ~~His~~ His letter notes that he himself will go to Japan late in August to teach for a year at Kyoto University.

A photostat copy of the article is attached. The original was returned to CVETIC.

speech

CVETIC said that recently he made a speech at Long Beach and afterwards some woman came up to him in the crowd and asked what he knew about a 10¢ pamphlet called "Red Background of J. EDGAR HOOVER", apparently issued by something called THE THUNDERBOLT, P.O. Box 261, Jefferson, Indiana where copies could be obtained by sending .10. CVETIC said he had not seen a copy and didnt know anything about it however.

Dear Sir:

It was with deep distress that I read your editorial comment this morning relative to the Japanese situation. How under heaven do you expect to escape the charge of war-mongering when spewing forth such irresponsible reactionaryism?

But let me identify myself as a Presbyterian clergyman, minister of the church indicated above, serving in Southern California Presbyterian churches for the past 27 years, recent Moderator of the Los Angeles Presbytery.

At this late stage of the game - and it may be later than we think - for you to resurrect that dog-eared McCarthyism line that blames everything that challenges the status quo is "communist inspired" is regrettable beyond description. Who doesn't know, in these days of enlightenment, that what is happening in Japan is what is happening in so many countries of the world these years AND IS NO MORE COMMUNIST INSPIRED THAN THE AMERICAN REVOLUTION was? It happened in China; more recently it happened in Turkey, Korea, Cuba, South Africa, etc. And the end is not yet.

Many of us fear communism as we fear Roman Catholicism, American materialism, etc. There are many "isms" that lovers of freedom justifiably fear. But let's not leave the truth so far that we so easily dismiss every freedom movement everywhere in the world as "communist inspired" - or, our own people will find out sooner than we think that the cry "wolf" may be nothing but more reactionary propaganda. Then, when the real evil strikes they won't believe it.

You really lost me with that reference to the "pretty fuzzy" writing in the current debate on our National Purpose. I commended you a few weeks ago for running something as thoughtful and needed as this series of articles but your true colors are seen in your reference as above. [redacted] my boy, we had hopes for you but they have been blasted.

b6
b7C

Earnestly, I pray to God that your "inciting to riot" on an international level might cease before the revolution spreads to our country FOR THE SAME REASON THAT YOUR KIND BRINGS IT TO PASS IN OTHER COUNTRIES.

Sincerely,

SFG:hg

RACIAL MATTERS;
CRITICISM OF FBI

WALT GVERIC, former Bureau informant, personally called at Los Angeles Office this date to furnish information on various matters. One of the matters he mentioned was the fact that following a speech he made recently at Long Beach, California, one of the audience, an unidentified woman, came up to ask him if he knew anything about a newsletter called "The Thunderbolt", apparently issued from P. O. Box 231, Jefferson, Indiana. According to the woman, the newsletter she had seen recently advertised a pamphlet captioned "Bad Background of J. EDGAR HOOVER" at a cost of 10 cents each. GVERIC said he had never seen a copy.

Los Angeles indices reveal that "The Thunderbolt" is the official news organ of captioned organization. However, this office does not have any information regarding the alleged pamphlet. Unless it has already done so, Indianapolis will verify the existence of such pamphlet and arrange to furnish copies to the Bureau, immediately.

THE BIG DECISION

P. O. BOX 2789

Hollywood 28, California

FEDERAL BUREAU OF INVESTIGATION

1340 West 6TH ST

Los Angeles CALIF

Last Friday, June 24th, I attended a meeting of the American Civil Liberties Union at the home of [redacted]

[redacted] I have often read and heard reports of the ACLU's pro-communist activities, so I decided to find out for myself. Any doubts I had were completely dispelled.

b6
b7C

After a brief business meeting, which was conducted by the local [redacted] of 1945,

the speaker of the evening was introduced. The speaker was Mr. Frank Wilkinson, who gave a report on the student demonstration in protest of the San Francisco House Un-American Activities Committee hearings as well as a general progress report on the ACLU's effort to force complete abolition of the House Un-American Activities Committee.

Here is a bit of background on Mr. Wilkinson. He was dismissed from the post of Director of Information for the Los Angeles Housing Authority after he refused to answer questions regarding his Communist Party membership before the California Committee on Un-American Activities on October 28, 1952. He served as Secretary of the "Citizens Committee to Preserve American Freedoms". He is on the National Council of the "Emergency Civil Liberties Union". His name appears on the letterhead of the "Los Angeles Committee for the Protection of the Foreign Born". He is presently serving as National Secretary of the "American Civil Liberties Union".

At least two of these very patriotic sounding organizations have already been named as subversive by agencies of our government. These are just a few of Mr. Wilkinson's many pro-communist affiliations. In all, he has been cited at least forty times by the House Un-American Activities Committee and the California Committee on Un-American Activities for his various subversive affiliations.

Those present at this ACLU meeting were well aware of Mr. Wilkinson's background and activities. To my amazement and horror, instead of treating him like the traitor he obviously is, they gave him a very warm welcome.

His address to this group was a masterpiece. He very cleverly left the impression that the entire population of the Bay Area had spontaneously risen in protest against the evil and sinister House Un-American Activities Committee. He spoke of the wonderful support the students had received from such great organizations as the Unitarian Church and Harry Bridges' Longshoremen's Union, which should not surprise anyone. He also claimed the support of Episcopal and Catholic Clergy, which is hard to swallow. According to him, the real hero of the affair was a sweet little guy named [redacted] who is a Communist of long standing and an organizer for the Long Shoremen's Union.

b6
b7C

From what I could piece together, I got the feeling that he (Wilkinson) and [] had organized the demonstrations which were supposed to have been spontaneous! He gave vivid descriptions of the brutality of the San Francisco Police, and made some very derogatory remarks about [] who is an investigator for the HUAC. The climax of his address was a report on the progress that has been made toward complete abolition of the House Un-American Activities Committee by the ACLU.

b6
b7C

The House Un-American Activities Committee is one of the most successful and one of the few remaining agencies devoted to exposing Communists in our schools, governments, churches, and other key places. It is very disturbing to me to see a flagrantly subversive organization like the American Civil Liberties Union operating undisturbed in our Community. It is more disturbing to see men like Joel Dvorman taking part in pro-communist activities. []

b6
b7C

[] As long as loyal and patriotic citizens remain passive this sort of thing will continue undisturbed and successful. I wonder what we would have done in 1942 if [] had had a German-American Bund meeting at his home. I think that our newspapers are neglecting a very important duty by failing to alert people to Communist Activity here at home.

In closing I would like to offer congratulations to [] [] with whom I agree completely.

b6
b7C

Sincerely,

[]

Preliminary Announcement

WALK WITH US FOR DISARMAMENT

SATURDAY, JULY 9, 1960

10.00 a.m. - 3.00 p.m.

From MacArthur Park to a Rally at the Band Shell in Exposition Park

Planned by

THE CONSULTATIVE PEACE COUNCIL

~~including the American Friends Service Committee, Fellowship of Reconciliation, Friends Committee on Legislation, Women's International League for Peace and Freedom.~~

Other community groups will serve as cooperating organizations.

The purpose of the walk is to witness to the hope that our country might reflect the strong growing concern of its citizens for a constructive policy of complete and general world disarmament, and to encourage our statesmen and politicians to take positive steps in this direction.

Those who walk will accept the discipline of NON-VIOLENCE and the direction of Monitors.

RALLY

3.00 p.m.

Band Shell, Exposition Park

General [redacted] Ret. will address the Rally. Other expected speakers will be a member of Congress and a prominent religious leader. [redacted] a Friend presently on special assignment to work on disarmament issues in Washington, D.C., has been invited to be [redacted] for the Rally.

Identification buttons for the marchers will be available at 25¢ each. In order to underwrite the costs of the demonstration, an offering will be received at the Rally.

The Council welcomes other groups who wish to cooperate in this witness and urges them to contact the Walk Coordinator, [redacted] before Tuesday, June 14.

WHY A WALK AND A RALLY?

See over.
